The Teacher and Student Connection (TASC) data collection is used to report a connection between students and teachers for use in creating rosters in other Kansas applications like K-FIT.

The Teacher and Student Connection (TASC) data collection focuses on the collection of Student and teacher connections for use in creating rosters in other Kansas applications.

Select the calendars that this report should run for, as well as the effective date. The Effective date will be set to the current date by default. Choose the State Format to get the file in the state defined file format, otherwise choose one of the testing/debugging formats.

Report Logic

Only one record per student per course/section reports. Students must have a State ID number in order to report. Students with state, grade or calendar exclude marked do not report.

Records are not reported when the student has dropped the course/section.

Generate the Report

1. Enter the **Effective Date** in *mmddyy* format or by clicking the calendar icon and selecting a date.
2. If desired, select a **Student Ad Hoc Filter** from the dropdown. Only students included in the selected filter are included on the report.
3. If desired, select a **Course Ad Hoc Filter** from the dropdown.

4. Select the **Format** from the dropdown. Available formats include State Format (Tab Delimited), HTML and CSV.
5. Input the **Maximum Records Per File** into the field. The default is 20000. When a number is added to this field, only that number of records are returned. Multiple files should be generated to accommodate all reporting records.
6. Select which **Calendar(s)** to include in the report.
7. Click **Generate Extract**.
