Programs (Georgia 3.6.1)

Last Modified on 04/01/2024 1:48 pm CDT

Tool Search: Ed-Fi

This entity represents any program designed to work in conjunction with, or as a supplement to, the main academic program. Programs may provide instruction, training, services or benefits through federal, state or local agencies. Programs may also include organized extracurricular activities for students.

Object Triggering Logic

This tables below describe logic for triggering syncing of this object.

Academic Programs, Flags, Graduation Programs, and Programs

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Post/Delete	Natural Key change: • LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported. • If the Program Name or Program Type Descriptor mapping changes.
Delete	Cascading Deletes: If the Natural Key changes, the following resources will be deleted/reposted. • Student Program Associations, Student Homeless Program Associations, Student Migrant Program Associations, Student Title 1 Part A Program Associations, Student Neglected or Delinquent Program Associations, Student Language Instruction Program Associations, Student CTE Program Associations, Student Special Education Program Associations, Student Food Service Eligibility Associations. • If a mapping to the Ed-Fi Program Type Descriptor is removed or changed, a resync must be completed on 'All Schools' to delete/repost Student Program Associations. If only 1 school is selected, only Student Program Association records associated with that school will be updated and the Program will remain until a resync on 'All Schools' for Programs is completed.

Scope Year Logic

This table describes scope year logic of this object.

Logic
Special Education: Record will report for each year in which there is a locked IEP or NPSP. • If the school year Start and End Date = Null, then report 07/01/XXXX as the Start Date and an End Date of 06/30/XXXX
English Learner (EL) and Immigrant: Record will report for each year where an active LEP service exists. • LEP service must be active at least one day within or the Scope Year. • If the school year Start and End Date = Null, then report 07/01/XXXX as the Start Date and an End Date of 06/30/XXXX.
Title 1: Record will report for each year in which there is a student that has a Title I program. • The program with the selection must be within the Ed-Fi scope year.

Logic
Early Childhood: Record will report for each year in which there is a student that has an Early Childhood program.   • The program with the selection must be within the Ed-Fi scope year
FRAM: Record will report for each year in which there is a student that has a food service program.   • The program with the selection must be within the Ed-Fi scope year
Data will only send for the years that have valid configuration.

Resource Preferences

Data Element Label	Mapping Needed
Program Type Descriptors	Programs
Program Type Descriptors - Flags	Flag

Object Data Elements

This table describes data elements sent within the Programs resource.
