Restraint Events (Michigan 3.1)

Last Modified on 07/30/2024 10:13 am CDT

This event entity represents actions taken by an education organization after a discipline incident where a student is restrained in a response. This is specifically for CRDC reporting.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	Reports a behavior incident's Behavior Response when the incident's Status is marked and saved as "Complete" Student must have at least 1 behavior response associated Response must be one of the following Response Types • Physical Restraint • Seclusion Posting can occur if a new response is added after Incident is marked as "Complete" Do not send if the student's enrollment is marked as No Show or State Exclude Do not send if the student is in a calendar marked as Exclude Do not send if the student's enrollment is in a school marked as Exclude
Delete/Post	When data that is part of the Natural Key is changed If the Date of Incident is changed and saved If the Event Type is changed and saved
Delete/Post	When the Incident's status is changed Delete when the status is changed from Completed to In Progress Post when the status is changed from In Progress to Completed
Delete	When an incident is deleted When all non-excluded enrollments in the school and year are deleted

Scope Year Logic

This table describes scope year logic of this object.

Logic
Discipline records will only send to the school year that the incident date is aligned to based on the School Year Start and End dates • If School Year Start Date is NULL, 7/1/xxxx will be the default start date used • If School Year End Date is NULL, 6/30/xxxx will be the default end date used • Data will only send for the years that have valid configuration

Object Data Elements

This table describes data elements sent within the Schools resource.

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
id	The unique identifier of the resource.		M		

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
schoolReference	A reference to the related Student resource.	Reports the fields that are part of the Natural Key for the School resource	M		
studentReference	A unique alpha-numeric code assigned to a student.	Reports the data that is part of the Natural Key for the Student resource	M		
identifier	A unique number or alphanumeric code assigned to a restraint event by a school, school system, a state, or other agency or entity.	Reports Incident ID	O	Behavior > Behavior Management > Incident ID	Behavior Incident.incident
eventDate	Month, day, and year of the RestraintEvent.	Reports the Date of Incident	O	Behavior > Behavior Management > Date of Incident	Behavior Incident.timesta
educationalEnvironmentType	The setting where the RestraintEvent was exercised.	This is optional, does not report	O		
programs	An unordered collection of restraintEventPrograms. The Special Education program associated with the restraint event.	This is optional, does not report	O		
reasons	An unordered collection of restraintEventReasons. The items of categorization of the circumstances or reasons for the restraint.	This is optional, does not report	O		
restraintCategories	An unordered collection of restraintEventRestraintCategories. (MI EXT) Additional details of seclusion and/or restraint event.	See array section for field details.	O	Behavior > Behavior Management > Behavior Response	

Data Element Label	Business Requirement	Business Rules	M, C or O	Data Source GUI Path	Database Field
etag	A unique system-generated value that identifies the version of the resource.		O
