Tool Search: Reading Success Plan

The Reading Success Plan tool tracks students who are identified as having a severe reading deficiency, are at risk of dyslexia, or have an official diagnosis of dyslexia and are in need of a Reading Success Plan (RSP). The goal of an RSP is to help students develop appropriate reading skills in comprehension, fluency, phonemic awareness, phonics, and vocabulary.

Records display in descending order from latest to earliest.

> Overlapping records are NOT allowed. Program Start and End Dates are NOT tied to the student's enrollment or school calendar.
