Data Health Check to Data Validations Checklist

Last Modified on 05/14/2025 10:02 am CDT

Use this checklist to insure users who were users of the Data Health Check have proper access to the Data Validations Report to view the results of rules included in default validation groups.

> Default Validation Groups were included in the 2335 Campus release.

Done	Task	Related Content
☐	Update to Campus .2335 or later.	[Release Pack Campus.2335 - August 2023](#)
☐	Review the default Validation Groups and the validation rules associated with each one. The default Validation Groups created to replace Data Health Check include: • Student • Scheduling • Behavior • Census • Transcripts • Special Education	[Validation Groups - Video](#)
☐	Associate User Groups with the relevant Validation Group. Users must be a member of at least one selected User Group and have tool rights to the Data Validation Report in order for this Validation Group to be available for reporting in the editor.	[Validation Groups](#)
☐	Assign users tool rights to the Data Validation Report via user group.	[Data Validation Report Tool Rights](#)

Done	Task	Related Content
☐	Communicate with staff about the replacement of Data Health Check with Data Validations and how to access the Data Validations Report.	Data Validation Report Data Validation Overview - Video
