Tool Search: Preschool Screener

Preschool Screener is a new State Program that allows multiple screening records to be created and reported for students in Ed-Fi. State-reported fields for Screener and Screener Exit Status have been moved from the Early Childhood tool to the Preschool Screener program editor.

Early Childhood Screening is used to identify possible health or developmental concerns in infants and young children who may need additional assessment, evaluation or resources to address those concerns. Screening may link families to free early learning opportunities and resources such as Head Start or other programs. Preschool Screener is a State Program used to record data for children who have been screened.

Preschool Screener Summary

Preschool Screener Program

Information

1. Click **New** to enter a new record, or select an existing record to modify or view the record in the **Program Information Detail** editor. The name and timestamp indicate when the record was last modified and by whom.
2. **Start Date** must be entered to save a record. See the table below for information about available fields. Follow district practices when populating the remaining fields in the editor.
3. Use **Print Summary Report** to generate a PDF report summarizing data entered for each of the selected students' Preschool Screening records. Note that Created By identifies the district in which the record was created.
4. Districts using the Campus Digital Repository may choose to upload **Documents** related to the selected student's records. See the [Manage Document Attachments](#) article to learn how to do this.

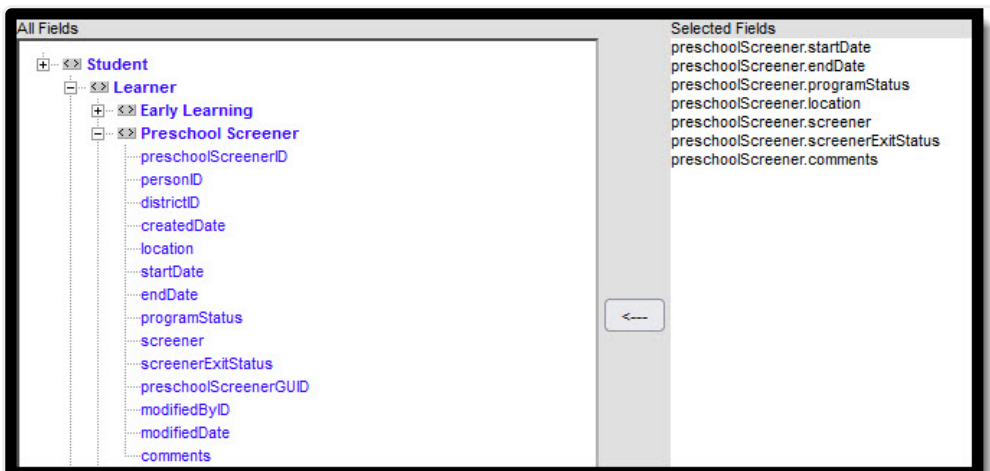

Tool Rights

- Read** - Access and generate the report
- Write** - Modify field data and generate the report
- Add** - Refresh data and generate the report
- Delete** - Provides no function for this tool

The Tool Rights Outline Path for this tool is Student Information > State Programs > Preschool Screener. For more information about Tool Rights and how they function, see this [Tool Rights](#) article.

Preschool Screener Ad hoc Reporting Fields

In Ad hoc, Preschool Screening editor fields are located under Student > Learner > Preschool Screener.
