A record will report when a person has a District Assignment or District Employment record that is aligned to a configured year.
Report when a staff has an active District Assignment or District Employment record that overlaps with the School year Start and End Dates. If School Year Start Date is NULL, 7/1/yyyy will be the default start date used. If School Year End Date is NULL, 6/30/yyyy will be the default end date used.
Data will only send for the years that have valid configuration.
When using data in Campus that has an effective date, the following logic will be applied to determine the scope year(s) to report the data to.
Current Year: Records will be compared to today's date to determine if the record is eligible to report.
Previous Years: The record's date must be on or before the schools year's end date defined in the School Years editor. If blank, the default date of 6/30/yyyy is used.
Future Years: The record's date must be on or after the schools year's start date defined in the School Years editor. If blank, the default date of 7/01/yyyy is used.
