Tool Search: Ed-Fi

This association indicates the education organization to which a staff member provides services; also known as school of service.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Pusiness Pules
Action	Business Rules
Post	 When a person has a District Employment record that overlaps the configured year with the District Staff check box checked and a District Assignment Code populated and mapped to an Ed-Fi Code OR when a person has a District Assignment record that overlaps the configured year with a Title populated and mapped to an Ed-Fi Code. Do NOT report a record if any one of the following scenarios are true: There is not a Social Security Number for the staff person. If the record is being triggered from a District Assignment record and it is marked as Exclude If the record is being triggered from a District Assignment record and the School is marked as Exclude If data is sent prior to the Exclude check boxes are checked, the data will remain and the user will need to use the Delete Tool to remove data. If the District Assignment Code / Title field is not mapped in Resource Preferences If school staff member has more than 1 qualifying District Assignment record, a record will generate for each eligible School/Start date If a staff member has a District Employment record that is marked as District Staff and a District Assignment record, the staff member will get multiple records. One with an Ed Org Reference Number = to the District Number and one with an Ed Org Reference Number = to each school they have an eligible District Assignment record for.
Post/Delete/Put	A post/delete will occur if the natural key changes. A Put will occur if anything else changes. • When the following information on a District Employment changes: • District Staff • District Assignment Code • Start Date • End Date • When the following information on a District Assignment changes: • Start Date • End Date • Title • Exclude • When the following information on an Identity changes: • Social Security Number
Delete/Post	If there are two District Assignment records that create the same natural Key and 1 is Deleted, the remaining record will be posted.
Delete	When a District Assignment record is deleted
Delete	When a District Employment record is deleted

Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.

Action	Trigger
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Delete/Post	Natural Key changes: • If the School Number/Ed-Fi School Number changes or the Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the School ID/Ed-Fi ID Change triggers.
Delete/Post	If the Start Date or Assignment Code changes, the record will delete and repost.
Delete/Post	Cascading Updates: The Staff Education Organization Assignment Association establishes ownership of the Staff record. If the natural key changes all dependent resources of staff will delete/post.
Dependent Resources	Staff Education Organization Employment Associations, Staff School Associations, Staff Section Associations, Staff Cohort Associations

Scope Year Logic

This table describes scope year logic of this object.

Business Rules

A record will report when a person has a District Assignment or District Employment record that is aligned to a configured year.

Report when a staff has an active District Assignment or District Employment record that overlaps with the School year Start and End Dates.

If School Year Start Date is NULL, 7/1/xxxx will be the default start date used.

If School Year End Date is NULL, 6/30/xxxx will be the default end date used.

Data will only send for the years that have valid configuration.

When using data in Campus that has an effective date, the following logic will be applied to determine the scope year(s) to report the data to.

Current Year: Records will be compared to today's date to determine if the record is eligible to report.

Previous Years: The record's date must be on or before the schools year's end date defined in the School Years editor. If blank, the default date of 6/30/xxxx is used.

Future Years: The record's date must be on or after the schools year's start date defined in the School Years editor. If blank, the default date of 7/01/xxxx is used.
