Tool Search: Cumulative ADM

The Cumulative Average Daily Membership Report returns enrollment information, including the type and amount of instruction provided, and outcomes, such as graduation, for Oregon public school students. All students receiving public education in grades K-12 should report. This includes full-time and part-time, as well as those enrolled in Alternative Education, ESL (English as a Second Language), and PnP (Pregnant and Parenting) Programs.

## Report Logic

The Cumulative ADM Report returns student average daily membership for overlapping and non-overlapping enrollments when the student was actively enrolled on at least one date in the reporting range that is NOT marked as State Exclude on the calendar, the enrollment record or the grade level.

- Students must have an SSID in order to report.
- The [Program Type](#) field on the student's Enrollment record must be populated. When it isn't populated, a regular attendance record reports with an invalid Program Type value of 00.

- An End Date reports for all students. When a student has withdrawn from school or the program, that end date reports. When a student is still actively enrolled in the school, the End Date entered on the Report Editor reports.

One record per student's non-overlapping (consecutive) enrollments report. This reports as a Program Type of 01 when the Program Type field has a value of 01, 02, 03 or 05 selected. Otherwise, the selected Program Type reports.

A SINGLE record for overlapping (concurrent) enrollments reports for the PRIMARY enrollment. The Program Type returned is based on the Program Type selected on the student's PRIMARY enrollment. When there are no primary enrollments, the Partial enrollment reports; when there are no partial enrollments, the Special Education enrollment reports.

See the [Overlapping and Non-Overlapping Enrollments](#) section for more information.

A single **EL Program** record reports for each enrollment record within the reporting start and end date based on the overlapping Identified Date and Exit Date. When there are multiple enrollments in the school year and the student ended and then restarted an enrollment, there will be one record per enrollment for the EL Program Type 02 program that falls within each enrollment's start and end dates. In addition, the student MUST be enrolled in at least one calendar on at least one date during the active Program Participation to report the program record. Overlapping EL records are not allowed. When the Parent Decline checkbox is marked, the student does not report for Program Type 02.

A **Pregnant and Parenting** record reports when the student's Pregnant and Parenting record is active on at least one date in the reporting range based on the program start and dates. This record reports as Program Type 03. In addition, the student MUST be enrolled in at least one calendar on at least one date during the active Program Participation to report the program record. Overlapping Pregnant and Parenting records are not allowed.

A **Case Management (ADM)** records reports when the student's Case Management record is active on at least one date in the reporting range based on the program start and dates. This record reports as Program Type 05. Overlapping Case Management records are not allowed.

## FTE

The single record returned for overlapping enrollments currently calculates only the reported enrollment's FTE. It is recommend users enter the student's total FTE for all school enrollments on the student's reporting Calendar Enrollment to override the partial FTE value reported in this instance.

## Eligible Days for Reporting Attendance

Program Type 01, 02, 03 and 15 consider each date where the student is scheduled into at least one class marked as attendance-taking that is scheduled during at least one instructional period on/between the reported ADM Enroll Date and the reported ADM Enrollment End Date.

Program Type	Report Logic
Program Type 01 and 15	Reports the student's earliest (minimum) Enrollment Start Date (in the case of multiple) to either the extract editor end date or the student's latest (max) Enrollment End Date whichever comes first UNLESS the student is marked as absent for the first 10-days where the first instructional day the student has present time.
Program Type 02	Reports the student's EL Start Date or the Calendar Start Date whichever is most recent to either the extract editor end date or the student's EL End Date whichever comes first.
Program Type 03	Report the Student's Pregnant and Parenting Program Participation Start Date to either the extract editor end date or the student's Pregnant and Parenting Program Participation End Date whichever comes first.

## Attendance Marks

Attendance marks are defined at the district level. The Cumulative ADM report looks at the Attendance Excuse mapping to determine whether the student's attendance mark counts as Absent or Present:

- Attendance Codes with a Status of Absent and an Excuse of Excused or Unexcused count as Absent.
- Attendance Codes with a Status of Absent and an Excuse of Exempt or Unknown count as Present.
- Attendance Codes with a Status of Tardy, Early Release, or Present, regardless of the Excuse selected; count as Present.

## Report Editor

Data Element	Description
<b>Start Date</b>	Entered date determines the first day that average daily membership is calculated for students. Dates are entered in MMDDYYYY format or can be selected by clicking the calendar icon. This field populates with the earliest start date of all selected calendars.
<b>End Date</b>	Entered date determines the last day that average daily membership is calculated for students. Dates are entered in MMDDYYYY format or can be selected by clicking the calendar icon.
<b>Ad hoc Filter</b>	Select which students to include in the extract by choosing a filter that was created in the Filter Designer. Only those students included in the filter are included in the report.
<b>Format</b>	Determines in which format the report generates - CSV or HTML.

Data Element	Description
<b>Calendar Selection</b>	Select the calendar of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year. When submitting to the state, select ALL calendars.
<b>Report Generation</b>	To generate the report immediately, use the <b>Generate Extract</b> option. To choose when the report generates, use the <b>Submit to Batch</b> option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the <a href="#">Batch Queue</a> article for more information.

## Generate the Report

1. Enter the desired **Start Date**.
2. Enter the desired **End Date**.
3. Select an **Ad hoc Filter**, if desired.
4. Select the desired **Format**.
5. Select the desired **Calendar(s)**.
6. Click the **Generate Extract** button to display the results of the report immediately, or click the **Submit to Batch** button to choose when the report generates.

## Overlapping and Non-Overlapping Enrollments

The following provides examples for how a student reports with different enrollment scenarios.

### Example 1. Student enrolled and withdrew in the district multiple times during the reporting period.

► [Click here to expand...](#)

In this scenario, the student was enrolled in three different calendars during the reporting year. Because of this, the student reports multiple times.

Enrollments	Expected Reporting Values
<b>LOGIC: Returns only one record set per student's enrollment enter/exit based on the PRIMARY service type (flag).</b>	
Two enrollments, two exits in High School A calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment September 1 to December 1</li> <li>PARTIAL enrollment December 2 to June 30</li> </ul>	Three records return: <ul style="list-style-type: none"> <li>One record for PRIMARY enrollment in High School A from September 1 to December 1.</li> <li>One record for PRIMARY enrollment in High School B from December 2 to March 2.</li> <li>One Record for PRIMARY enrollment in High School C from March 3 to June 30.</li> </ul>
Three enrollments, three exits in High School B calendar: <ul style="list-style-type: none"> <li>PARTIAL enrollment September 1 to December 1</li> <li>PRIMARY enrollment December 2 to March 2</li> <li>PARTIAL enrollment March 3 to June 30</li> </ul>	
One enrollment, one exist in High School C calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment March 3 to June 30</li> </ul>	

### Example 2. Student has TWO PRIMARY Enrollments

► [Click here to expand...](#)

#### Scenario 1. Overlapping Enrollments

In this scenario, the student was enrolled in different calendars, both with primary enrollments AT

THE SAME TIME. These are overlapping or concurrent enrollments.

Enrollments	Expected Reporting Values
<b>Returns only one record.</b>	
Enrollment 1 in High School A calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment September 1 to December 1</li> <li>PROGRAM TYPE 09</li> </ul>	One record reports for the High School B enrollment with a Start Date of September 1 and End Date of July 1 (one day after the enrollment end date) and a Program Type of 01.
Enrollment 2 in High School B calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment December 1 to June 30</li> <li>PROGRAM TYPE 01, 02, 03 or 05</li> </ul>	

## Scenario 2. Non-Overlapping Enrollments

In this scenario, the student was enrolled in different calendars, both with primary enrollments that do not overlap. These are consecutive enrollments.

Enrollments	Expected Reporting Values
<b>Returns two records.</b>	
Enrollment 1 in High School A calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment September 1 to December 1</li> <li>PROGRAM TYPE 01, 02, 03 or 05</li> </ul>	One record reports for the enrollment with a Start Date of September 1 and End Date of December 2 (one day after the enrollment end date) and a Program Type of 01. One record reports for the enrollment with a Start Date of December 2 and End Date of July 1 (one day after the enrollment end date) and a Program Type of 09.
Enrollment 2 in High School B calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment December 1 to June 30</li> <li>PROGRAM TYPE 09</li> </ul>	

## Example 3. Student has TWO Enrollments, only one is Primary

► [Click here to expand...](#)

### Scenario 1. Overlapping Enrollments

In this scenario, the student was enrolled in different calendars, AT THE SAME TIME. These are overlapping or concurrent enrollments.

Enrollments	Expected Reporting Values
<b>Returns only one record.</b>	
Enrollment 1 in High School A calendar: <ul style="list-style-type: none"> <li>PRIMARY enrollment September 1 to December 1</li> <li>PROGRAM TYPE 09</li> </ul>	One record reports for the High School A enrollment with a Start Date of September 1 and End Date of July 1 (one day after the enrollment end date) and a Program Type of 09.
Enrollment 2 in High School B calendar: <ul style="list-style-type: none"> <li>SECONDARY enrollment December 1 to June 30</li> <li>PROGRAM TYPE 01, 02, 03 or 05</li> </ul>	

## Scenario 2. Non-Overlapping Enrollments

In this scenario, the student was enrolled in different calendars, both with primary enrollments that do not overlap. These are consecutive enrollments.

Enrollments	Expected Reporting Values
<b>Returns two records.</b>	
Enrollment 1 in High School A calendar: <ul style="list-style-type: none"> <li>PARTIAL enrollment September 1 to December 1</li> <li>PROGRAM TYPE 01, 02, 03 or 05</li> </ul>	One record reports for the High School A enrollment with a Start Date of September 1 and End Date of December 2 (one day after the enrollment end date) and a Program Type of 01.
Enrollment 2 in High School B calendar: <ul style="list-style-type: none"> <li>SPECIAL EDUCATION enrollment December 2 to June 30</li> <li>PROGRAM TYPE 09</li> </ul>	One record reports for the High School B enrollment with a Start Date of December 2 and End Date of July 1 (one day after the enrollment end date) and a Program Type of 09.

## Present Days Calculation

Program Types **04-14** and **16**, reports as 0.

Program Type **15**:

- Half-time Kindergarten students DO NOT report with Half Days of absence .**
  - Days on which the student is Marked FULL-day absent count as 0 (Present).
  - Days on which the student is present for any portion of their scheduled day count as 1.0 (present).

Program Types **01, 02 and 03**:

- Full-time students MAY report with Half Day of absence:**

- Students present for more than half of the morning count as (0.5) present for the morning AND students present for more than half of the afternoon count as (0.5) present in the afternoon.
  - To determine whether the class is considered a morning or an afternoon class, logic calculates the total minutes that the student is present prior to or after 12 noon:
    - When 50/50, count as a morning class.
    - Otherwise count as morning or afternoon class depending on which side contains the most scheduled minutes.

- **Calculation Detail:**

- Days on which the student is Marked FULL day absent count as **0** (present).
- Days on which the student is FULL-day present (*NOT marked Absent*) count as **1.0** (present).
- Days where the student is more than or equal to 50% present in their morning classes AND more than or equal to 50% present in their afternoon classes, **count as 1.0 (present).**
- Days where the student is less than 50% present in their morning classes AND more than or equal to 50% present in their afternoon classes, **count as 0.5 (present).**
- Days where the student is more than or equal to 50% present in their morning classes AND less than 50% present in their afternoon classes, **count as 0.5 (present).**
- Days where the student is less than 50% present in their morning classes AND less than 50% present in their afternoon classes, **count as 0.0 (present).**

## Absent Days Calculation

Program Types **04-14 and 16** report as 0 (zero).

Program Type **15**:

- **Half-time Kindergarten students DO NOT report with half days of absence .**
  - Days on which the student is not Marked FULL day absent count as **1.0 (absent).**
  - Days on which the student is present for any portion of their scheduled day count as **0 (absent).**

Program Types **01, 02 and 03**:

- **Full-time students MAY report with Half Day of absence:**
  - Students absent for half or more of their morning classes count as (0.5) absent for the morning AND students absent for half or more of their afternoon count as (0.5) absent in the afternoon.
  - To determine whether the class is considered a morning or an afternoon class, look at how many minutes occur prior to or after 12 noon:
    - When 50/50, count as a morning class.
    - Otherwise count as morning or afternoon class depending on which side contains the most scheduled minutes.
- **Calculation Detail:**
  - Days on which the student is Marked FULL day absent count as **1.0 (absent).**
  - Days on which the student is FULL-day present (*NOT marked Absent*) count as **0 (absent).**

- Days where the student is more than or equal to 50% absent in their morning classes AND more than or equal to 50% absent in their afternoon classes, **count as 1.0 (absent).**
- Days where the student is less than 50% present in their morning classes AND more than or equal to 50% present in their afternoon classes, **count as 0.5 (absent).**
- Days where the student is more than or equal to 50% absent in their morning classes AND less than 50% absent in their afternoon classes, **count as 0.5 (absent).**
- Days where the student is less than 50% absent in their morning classes AND less than 50% absent in their afternoon classes, **count as 1.0 (absent).**

## Calculated Average Daily Membership (ADM) Amount

**Program Types 13 and 14** report as 0.

**Program Types 04-12 and 16** report as blank.

**Program Types 01, 02, and 03** report the Actual Days Present value (field 58) plus the Actual Days Absent value (field 59) divided by the Actual Session Days (field 57) multiplied by the student's FTE value equals the student's ADM.

**Program Type 15** reports the Actual Days Present value (field 58) plus the Actual Days Absent value (field 59) divided by the Actual Session Days (field 57) multiplied by a value of 1.0 equals the student's ADM.

- Days on which the student is Marked FULL-day absent, **count as 1.0 (absent).**
- Days on which the student is FULL-Day present (NOT marked Absent), **count as 0 (absent).**
- For all other situations, **look at the student's schedule:**
  - **0.5 FTE (part-time) students should NOT report with 1/2 Days of absence :**
    - When the student is ONLY scheduled into classes that are scheduled during periods that are active any time prior to 12 noon (morning) AND
      - None of these periods are marked absent, **count as 0.**
      - At least one of these periods are marked absent, **count as 1.0.**
    - When the student is ONLY scheduled into classes that are scheduled during periods that are active any time after 12 noon (afternoon) AND
      - None of these periods are marked absent, **count as 0.**
      - At least one of these periods are marked absent, **count as 1.0.**
  - **1.0 FTE (full-time) students MAY report with 1/2 Day of absence:**
    - When the student is more than or equal to 50% present in the morning (prior to 12 noon) AND more than 50% present in the afternoon (after 12 noon), **count as 0.0 (absent).**
    - When the student is less than 50% present in the morning (prior to 12 noon) AND more than 50% present in the afternoon (after 12 noon), **count as 0.5 (absent).**
    - When the student is more than or equal to 50% present in the morning (prior to 12 noon) AND less than 50% present in the afternoon (after 12 noon), **count as 0.5 (absent).**
    - When the student is less than 50% present in the morning (prior to 12 noon) AND less than 50% present in the afternoon (after 12 noon), **count as 1.0 (absent).**

- Reports TOTAL calculated days of minutes that occur prior to or after 12 noon:
  - When 50/50 count as a morning class.
  - Otherwise count as morning or afternoon depending on which side contains the most scheduled minutes.

## Required Fields by Program Type

The following table lists which fields are considered "required" by the state based on the reported Program Type. These fields may not necessarily be a required selection in the product. See the [Enrollments](#) article for descriptions of the Program Types.

Both parents may receive services, but when one parent's needs have already been met by the other parent's accommodations, the individual not requiring services may not be claimed under this program type. When the regular school program is online or when that is a regular offering of the school, participating in that regular school program would not be considered an accommodation.</p> <p>NOTE: Districts are obligated to provide specific services to pregnant and parenting students regardless of whether they are eligible for additional funding. These services are described in ORS 336.640. Post Graduate Scholars are not eligible for any weighted funding.</p>
