Ed-Fi ID Indiana

Prerequisites

- Ed-Fi functionality must be enabled via the [Enable Ed-Fi System Preference](#).
- Ed-Fi must be configured by a system administrator via the [Ed-Fi Configuration tool](#).

Students / Staff: Indiana assigns unique Ed-Fi IDs for students and staff. These unique IDs are populated into the Student State ID and Staff State ID fields, respectively. If Ed-Fi functionality is enabled on your version of Campus, the Use Ed-Fi ID button is available next to each Person Identifier to copy the Ed-Fi ID into the other fields (if desired).

Parents: Indiana does not assign unique Ed-Fi IDs for parents. However, a unique ID must be populated to send parent information to the state. If districts leave the Parent Ed-Fi ID field blank, a default value of (4 digit District ID) + (Person ID) is populated into the field and sent. Districts can also populate this field with a different unique value if they do not want to use the default value.

Users must have **Read**, **Write**, and **Add** tool rights to the following for the ability to select the **Get Ed-Fi ID** button and access the Ed-Fi database to search and locate a person's Ed-Fi ID:

Demographics - Ed-Fi Configuration - Ed-Fi Locator - Ed-Fi Tools

Access to the System Administration Ed-Fi tools should be reserved for the Campus Administrator; however, access to the Error Log and Resync tool may be granted to other users, depending on their role within the district.

Use extreme caution when assigning **Delete** tool rights. Deleting or modifying a person's Ed-Fi ID after it has been issued will cause the person's data to be deleted from the original person's record and synced to the new person's record. See the [Tool Rights](#) article for more information about Tool Rights and how they function.
