Evaluations are used to document the student's educational needs and the student's determination of eligibility for special education. This document describes each editor, the section(s) of the print format that include the entered information, a description of each field on the editor, and any special considerations and instructions for using the editor and fields.

An evaluation must be created whether or not the student is determined to have a disability. A copy of the evaluation summary report, including the documentation of eligibility, is given to the student's parents by the school

The current format of this document is the **WI Existing Data Review 2022**. Evaluation formats are selected in [Eval Types](#).

Editor Types

There are two types of editors available: List or Basic editors. When navigating to a Basic editor, the list of fields within the editor display. List editors display a list of all records within that editor. Clicking an existing record or the New button opens the detail view for an individual record. An example list editor is the [Team Participants](#) editor.

Padlock Icon

Only one user at a time can actively work on an editor. A person with a padlock icon  displays in the Editors side panel, Editor Home, and List Screen of list editors indicating which editors currently have users working on them. Hovering over the icon displays the name of the user who has checked out the editor, including the current user (you).

Editors that are currently being edited are read only for all other users. The name of the person working on the editor displays in the header. Once the editing user navigates away from an editor, that editor becomes available for others to work on.

Template Banks

Certain fields within several editors have a paper icon  displays next to their name. When the icon is clicked, a side panel displays with the available library of predetermined text for that field. [Template Banks](#) are managed in System Administration.

(ED-1) Existing Data Review

The Existing Data Review editor records the review of existing evaluation data regarding the student's academic achievement to determine any additional data is needed, including additional assessments.

(ED-1) Existing Data Review NOT STARTED
Editor 6 of 10

The purpose of the review of existing evaluation data is to determine whether there is sufficient information needed to conduct a comprehensive evaluation to determine eligibility and to identify all of the student's special education and related services needs.

The review of existing data is conducted:

- **After** the parent(s) receives the *Notice of Receipt of Referral and Start of Initial Evaluation or the Notice of Reevaluation*,
- **Before** sending the *Notice of Consent Regarding Need to Conduct Additional Assessments or Notice that No Additional Assessments Needed*.

If a meeting is held to consider existing data, this form is used as documentation of that meeting, along with a Cover Sheet. If no meeting is held, this form is used to document the input and decisions of required participants.
