Tool Search: Calendar Report

The Calendar Report generates a school's instructional days/minutes/hours scheduled for the selected year and validates whether a school is compliant with the amount of days/minutes/hours needed for a particular calendar to report. It is used to validate that schools have appropriate calendars before the start of year and have the ability to submit major calendar changes for state approval. This report is also available on the [Days Setup](#) tool.

MT Calendar Report ☆
Reporting > MT State Reporting > MT Calendar Report

MT Calendar Report.

This report generates school(s) instructional days/minutes scheduled for the selected year for State review and approval.

Report Logic

This report can run against a district's active year as well as any prior year and in both District Edition and State Edition against District Edition data.

Report Editor

Field	Description
Format	Selection determines how the report generates. Options are State Format (TSV), CSV, HTML, or XML . Use the CSV, HTML, or XML format for data review prior to sending the report to the state in the State Format.
Select Calendar	Selection determines which calendar
Generate Extract or Submit to Batch	The report can be generated immediately using the Generate Report button. When selecting multiple calendars, schools or districts, use the Submit to Batch button to choose when the report generates. See the Batch Queue article for additional guidance.

Generate Report

1. Select the **Format** in which to generate the report.
2. Choose which **Calendar(s)** to include on the report.
3. Click **Generate Extract** or **Submit to Batch**. The report generates in the selected format.

Report Layout

Element	Description	Location
District Code	Reports the assigned District Code. <i>Numeric, 2 digits</i>	District Information > District Editor > State District Code District.number
School Name	The name of the school. <i>Alphanumeric, 50 characters</i>	School Information > School Editor > Name School.name
