**Classic View:** Student Information > General > Enrollments

**Search Terms:** Enrollment

The Enrollment tool displays all occurrences of a student's enrollment in the district. Because this is an historical view, this list could be long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

See the core [Enrollments](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

## General Enrollment Information

All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the [Enrollments](#) page.

## Start Status

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

► [Click here to expand...](#)

## Start Date

Date student entered the attending school.

► [Click here to expand...](#)

## End Status

The End Status indicates the reason a prior year student in grade 7-12 has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to the end-dated enrollment. Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply when the **No Show** checkbox is marked. When the No Show checkbox is marked, you can enter an End Status without an End Date.

► [Click here to expand...](#)

## End Date

Date student left the attending school.

▶ [Click here to expand...](#)

## No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy.

▶ [Click here to expand...](#)

## School Choice

Identifies a student is eligible, has been offered, applied for but was denied, or received School Choice. Children enrolled in a Title I school are eligible for school choice when their school is in the first and subsequent years of school improvement, corrective action, or restructuring. Any child attending such a school must be offered the option of transferring to a public school in the district not identified for school improvement, unless such an option is prohibited by state law. ESEA requires that in some circumstances priority in providing school choice be given to the lowest achieving children from low-income families.

This checkbox is used only for district-tracking purposes and is NOT used in state reporting.

See School Choice in the [State Reporting Fields](#) Section for information on the collection of state-reported School Choice data.

▶ [Click here to expand...](#)

## Service Type

The Service Type is used to indicate the type of enrollment and the intended service the student receives. Service Types include: (P) Primary, (S) Partial, and (N) Special Ed Services.

## State Reporting Fields

Data entries made in the State Reporting Fields section of the Enrollments tab are unique to the state of Missouri and may directly affect the way students are reported to the state department of education.

Updates to State Reporting fields will overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.
