Technical Information

See the Technical Information - Release Pack Campus.2343 (https://kb.infinitecampus.com/help/technical-information-release-pack-campus2343) article for a list of schema changes in this release.

Academic Programs

Academic Programs Course Display Fix (SIS-168802)

An issue where a dropped course displayed twice in the Progress and Course Plan tabs has been fixed to display only once.

Path: Student Information > Academic Planning

Activity Registration

Activity Registration Maintenance (SIS-172905)

The following updates have been made to the Activity Registration tool:

- Validation was added so users can no longer select deleted Product Types.
- Resolved issue where optional forms with Parent fill/Student signature were unable to be accessed.

Path: Student Information > Activity Registration

Assessment

Child Test User Interface Updated (SIS-172771) **[Enhancement]**

The Child Test section under Test Detail in the Assessment Center has been updated to enhance user experience:

- Side panel defaults as the screen focus when the 'Add Existing' button is clicked.
- When the user navigates to the child test:
  - Right Arrow / Down Arrow keyboard keys can be used to navigate between child tests putting the focus on the next available item.
  - Left Arrow / Up Arrow keyboard keys can be used to navigate between child tests putting the focus on the previously available item.
- When the Child Test name is selected:
  - Use the Enter key to move to the child page.
  - Use the Tab key to navigate to the Remove button on the screen and then select the Enter key to remove that child test.
  - Use the ESC key to reload the page and the focus defaults to the Name field.

Path: Assessment > Assessment Center > Test Detail > Child Tests

Assessment Publishing Updated (SIS-172875)

Attempts at publishing assessments either took a significant amount of time or resulted in errors. This issue has been resolved. State Edition users can now publish assessments without errors or time delays.

Path: Assessment > Assessment Center > Publish

Score Fields Section Updated (SIS-172898) **[Enhancement]**

The Score Fields section under Test Detail in the Assessment Center has been updated to display in a dual list box to enhance user experience.

Path: Assessment > Assessment Center > Test Detail > Score Fields

Student Assessment Proficiency Level Logic Updated (SIS-173211) **[Enhancement]**

Logic for the 'Proficiency Level' field on the Student Assessment screen has been updated to display the proficiency value (if populated) related to the Result / Proficiency Statuses data tied to an assessment. The drop list is blank if proficiency levels were not set up for the assessment.

Path: Student Information > General > Assessment > Proficiency Level

Assessment Center Copy Tool Right Update (SIS-173241)

The 'Copy' button did not display in the New Look of Campus version of the Assessment Center. This issue has been resolved. The 'Assessment Center Copy' sub-right is now included under the Assessment Center tool rights in the New Look of Campus. The 'Copy' button displays as expected when the applicable tool rights are assigned.

Path: System Administration > User Security > Users > Tool Rights

Hidden Score Fields Updated (SIS-173425)

With the release of Campus.2339, the following score fields under Test Detail in the Assessment Center defaulted to a hidden status:

- Comment
- Question Count
- Result Level

This issue has been corrected and the fields display as expected.

Please note multiple score field options are available. They can be added or modified (designate as required, hide, change sequence, etc.) in the Attribute Dictionary.

Path: Assessment > Assessment Center > Test Detail > Score Fields

Behavior

Behavior Management Fix (SIS-172803)

An issue where users were unable to delete Behavior Incidents from a Behavioral Referral until the admin notification was deleted first has been resolved.

Path: Behavior > Behavior Management

Campus Instruction

Seating Charts with Multiple Sections (SIS-110636)

Previously, if a seating chart includes multiple sections and one of those sections is deactivated,

the seating chart is no longer visible. This has been corrected.

Path: Instruction > Seating Charts

Section Names in Teaching Center (SIS-145542)

Previously, if a section moved from one period to another and a new section was added to the original section's period, the Teaching Center still displayed the name for the original section instead of the new section. This has been corrected.

Path: Instruction > Teaching Center

Personalized Score Comments (SIS-170925)

An option has been added to populate score comments with students' names when filling comments. To add student names to comments, click Score for an assignment, enter comment text in the Comments column header, click the smile icon the add {Name} into the comment, and click the fill icon to indicate which students should receive the comment. Once the comment is filled for students, each student's first name is added to the comment.

Path: Instruction > Grade Book > Assignment > Score > Comments

Pass/Fail Coloring in Guest Grade Book (SIS-171901)

Settings logic has been updated when accessing the Grade Book as a guest so that Pass/Fail Coloring options are now correctly applied.

Path: Scheduling > Courses > Section > Grade Book

Excluded Assignments in Reports (SIS-172742) **[Enhancement]**

Report editors that have an assignment picker have been updated so that assignments in a category that is marked as Exclude from Calculation display with a red 'Excluded' pill icon after the assignment name, as with assignments that do not have 'Include in Grade Calculation' marked in Grading information.

Path: Instruction > Reports

Adding Sections to a New Assignment (SIS-172924)

Previously, the 'Save and Add Sections' button that displayed when creating an assignment was incorrectly hidden. This button has been restored.

Path: Instruction > Grade Book > Add

Campus Learning

Images and PDFs in Curriculum (SIS-170948) **[Enhancement]**

Assignments and Resources have been updated so that when an image or PDF is attached, the image displays in the body of the assignment, instead of requiring a user to download it to view it.

Path: Instruction > Grade Book > Add

Campus Learning Usage - Grading Services Connections (SIS-171764)

The Campus Learning Usage tool has been updated to display the Grading Services column if a OneRoster connection exists, regardless of the version of OneRoster or OAuth.

Path: System Administration > Campus Learning > Campus Learning Usage

Assignments in Curriculum Planner (SIS-172900)

Previously, an error occurred when opening assignments via the Curriculum Planner. This has been corrected.

Path: Scheduling > Courses > Course > Planner

Campus Student/Campus Parent

Portal - Responsive Offering Full Class Addition (SIS-172721)

A full responsive offering section (maximum seat count has been reached) is no longer able to be selected on the Portal.

Path: Campus Student

Graduation Progress in Campus Student & Parent (SIS-172844)

Graduation Progress information has been removed from the at-a-glance information for students on the home page of Campus Parent. On the individual student screen of Campus Student and Campus Parent, the label has been changed to a link to 'Check Status'.

Path: Campus Student & Campus Parent

Census

Census (SIS-155947)

Paths displayed for hyperlinks located on the Summary tool in New Look have been updated to reflect New Look navigation.

Path: Student Information > General > Summary

Path: Scheduling & Courses > District Information

Breadcrumbs Not Working When Custom Tool is Placed in Multiple Locations (SIS-171643)

Users were getting an error when selecting the breadcrumbs for custom tools placed in multiple locations using the Custom Tool Placement Editor. This issue was corrected.

Path: System Settings > Custom Data and Links > Custom Tool Placement Editor

SSRS Report Configuration Enhancement (SIS-172867) **[Enhancement]**

Modified the instruction text box to incorporate a WYSIWYG editor within the SSRS Report Configuration.

Path: System Administration > Custom > SSRS Report Configuration

SSRS Report Configuration Maintenance (SIS-173340)

The following updates have been made to the SSRS Report Configuration tool:

- Fixed default values for dates and context values.
- Leading and trailing whitespace will be removed from execution and management URLs on save.
- Created a debug mode for reports to find known issues or fields configured in ways that can cause issues.

Path: System Settings > Custom Data and Links > SSRS Report Configuration

Data Change Tracker

KYAttDailySummary Table Removed from Data Change Tracker (SIS-172915) **[Enhancement]**

The dbo.KYAttDailySummary table has been removed from Data Change Tracker as it was consuming an enormous amount of unnecessary disk resources and because of other attendance tables are already being tracked, its removal does not negatively impact tracking of Kentucky attendance data.

Path: Data Change Tracker

DIS/SIF

SIF Authentication Object Update (SIS-172805)

The issue with sending the SIF Authentication object when a calendar scope was selected has been fixed

Path: System Administration > Data Interchange > Agents

Syncing Daily Grad Score Data Breaking DIS (SIS-173049)

Syncing daily grad score data was overflowing the packNumber smallint on the table, causing negative numbers and thus breaking DIS syncing. This issue was corrected.

Path: N/A

SIF Data Tool and Record Deleter Scrollbars Fix (SIS-173192)

The scrollbars in the SIF Data tool and SIF Record Deleter were previously not working properly. This issue has been corrected.

Path: System Administration > Data Utilities > SIF

Early Warning

Early Warning Syncing of Yearly Records Does not Complete Properly (SIS-171171)

Early Warning DIS Syncing was suffering from performance issues when syncing the Yearly records that caused, in some cases, the sync event to be unable to complete successfully. The underlying cause of these performance issues has been corrected.

Path: Student Information > Counseling > Early Warning

Refinement of DIS Objects for Early Warning State Syncing (SIS-173525) **[Enhancement]**

To improve the performance and integrity of syncing Early Warning data to DIS, the following updates were made:

- Yearly Scores now only sync the current scope year.
- Monthly Scores sync all scores but the package size was changed to 400.
- Daily Scores logic was updated to only store the most recent Daily Score.

Path: N/A

Ed-Fi

Ed-Fi - Official Attendance Period Update for Sections and Class Periods Resources (SIS-160852) **[Enhancement]**

The Official Attendance Period element has been added for reporting in the Sections and Class Periods resources for Core Ed-Fi.

Path: System Administration > Ed-Fi

Ed-Fi ID Field (SIS-173176)

The Ed-Fi ID field was previously not displaying for states not using the Ed-Fi Locator tool. This issue has been corrected.

Path: Census > People > Demographics

Events and Actions

Events and Actions Logging Fix (SIS-172986) **[Enhancement]**

The CampusEventLog table, which stores log information from debug logging of events in Events and Actions, now has a data retention policy to prevent unrestricted growth of the table:

- Every night, debug logging is disabled on all events in Events and Actions.
- The maximum duration log messages will be stored is now seven days.

Existing log messages will be deleted when this update is taken.

Path: N/A

FRAM

Meal Benefits Print Report Fix (SIS-172017)

After a parent or guardian had completed the Meal Benefits application on the Portal, the Print Letter from their Inbox message displayed a blank screen on the Mobile app. This has been corrected.

Path: N/A

FRAM Eligibility Calendar Rights Fix (SIS-173051)

When users have calendar rights assigned to them through a user group, they would receive an "Unable to load calendar rights" error when they open the Eligibility tool. This has been corrected.

Path: FRAM > Application Processing > Eligibility

FRAM Eligibility Fix (SIS-173485)

If a student had an Eligibility with a direct type code that doesn't match a code in the Campus dictionary, the Eligibility page would not load. This has been corrected.

Path: FRAM > Application Processing > Eligibility

Grading & Standards

Importing Standards - CFIItemType (SIS-171051)

The process for importing standards has been updated to account for either type of method for providing information about the CFItemType, CFItemType or CFItemTypeURI, as defined by the CASE specification.

Grading & Standards > Standards Bank > Import

Grading Setup

Sort Order in Grading by Task and Grading by Student (SIS-153468) **[Enhancement]**

The Grading by Task and Grading by Student tools have been updated to sort standards by the same logic as the Standards Bank.

Path: Scheduling > Courses > Section > Grading by Task, Grading by Student

Grade Calc Options - New Look of Campus (SIS-172916)

The Grade Calc Options tools for Courses and Course Masters have been updated to display corrected in the New Look of Campus.

Path: Scheduling > Courses > Grade Calc Options; Grading & Standards > Course Masters > Grade Calc Options

Infrastructure

Too Many Connections to RabbitMQ Causing Site Slowness (SIS-173249) **[Enhancement]**

Special Ed Plan State Edition Syncing Fix (SIS-172866)

An issue where historical Special Ed Plans were not syncing to the state using the Resync State Data tool has been fixed.

Path: Student Information > Special Ed > General > Documents, System Administration > Data Utilities > Resync State Data

Messenger

Messenger 2.0 Staff Recipient Fix (SIS-168326)

Scheduled staff with no school calendars in the past were not recognized as recipients in Messenger 2.0 when using a filter with schoolEmployment.personID, even if 'Include District Staff' was enabled. This has been corrected.

Path: Communication > Messenger > Messenger 2.0

Messenger 2.0 Scheduled Messages Fix (SIS-168328)

When a scheduled message was created with multiple calendars included and a calendar was later deleted, the scheduled message would fail with an error indicating that the sender needed tool rights to the deleted calendar. This has been corrected.

Path: Communication > Messenger > Messenger 2.0

Sent Message Log Formatting (SIS-168808)

When generating the Sent Message Report CSV for a Messenger 2.0 Message that contained both Staff and Student recipients, the staff delivery detail fields were not being populated in the correct columns. This has been corrected.

Path: System Administration > Messenger > Sent Message Log

Wisconsin

Wisconsin Special Ed Team Member Caseload Role Added and Evaluation Updates (SIS-169241) **[Enhancement]**

A new Caseload Role, Eval Case Manager, has been added as an option on the Special Ed Team Members tool. This option differentiates those staff who only manage Special Ed Evaluations.

Students now display in the staff member's Caseload to reflect this additional role.

With this update, the Wisconsin Referral, Existing Data Review, and Eligibility Report have been updated to pull in the Eval Case Manager information on the Student Information editors.

The Eval Case Manager role has also been added as an option and now reports on the Caseload Summary and Process Compliance reports.

Two new Ad hoc fields, evaluation.evalManagerPersonID and evaluation.evalManagerName, have been added.
