

Student Title 1 Part A Program Associations (Texas v4.0)

Last Modified on 12/30/2024 11:16 am CST

This association represents the Title I Part A program(s) that a student participates in or from which the student receives services.

Object Triggering Logic

This table describes the logic for triggering the syncing of this object.

Action	Trigger
Post	<p>When a student is given a Title 1 record that has been mapped to an Ed-Fi Code and the record overlaps a configured year</p> <p>OR</p> <p>If the school has a school history record with Title 1 = Schoolwide Program, report a record for all enrolled students.</p> <p>Multiple Enrollments - A new record will be created for each enrollment change found. Compare enrollment Start/End Dates against program Start/End Dates to produce a complete set of records.</p> <p>Exception: Ignore enrollment changes if End Status is mapped to an Ed-Fi Code = SC and SchoolID did not change.</p> <ul style="list-style-type: none"> Do not send a record if enrollment is in a calendar marked as Exclude. Do not send a record if enrollment is in a school marked as Exclude. Do not send a record if enrollment is marked as No Show.
Delete/Post	<p>When any field part of the natural key is updated:</p> <ul style="list-style-type: none"> Title 1 Program Start Date
Put	<p>When any field not part of the natural key is updated</p> <ul style="list-style-type: none"> End Date
Delete	When the student no longer has an enrollment in the configured year.
Delete	When the Title I record has been deleted.
Delete	When the Title I record no longer overlaps the configured year.
Delete	When school is no longer marked as a Schoolwide Program.

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will be needed to reflect the changes.

Action	Trigger
Resync	Programs will only be update/deleted if a mapping is changed after a resync is completed and 'All Schools' is checked on resync. Programs are at the district level and students in another school may have a Student Program Association record that references the Program.

Natural Key Changes, Cascading Updates, and Deletes Logic

Action	Trigger
Post/Delete	<p>Natural Key changes:</p> <ul style="list-style-type: none"> LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error, and this change would not be supported. If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers. If the Program Name or Program Type Descriptor mapping changes and a resync is completed. If the Start Date of the program record changes. If the Title 1 drop list is changed on the School/School history record, a resync must be completed. All records associated with the old program type will be deleted, and new records will post with the new program.
Delete	Cascading Deletes: N/A - no dependent resources.

Scope Year Logic

Logic
The record only sends to any year with which the Title 1 record overlaps.
Data only sends for the years that have valid configuration.
