Object Triggering Logic

This table describes the logic for triggering the syncing of this object.

Action	Trigger
Post	<p>The student must have a Student School Association record in the configured year and meet the following EL record criteria:</p> <ul style="list-style-type: none"> • The student has an EL Program Status = 'EL'. • The student has an EL Program Status = 'Exited EL' and the First Year Monitoring or Second Year Monitoring dates overlap a configured year. Use today's date to determine their status. <ul style="list-style-type: none"> ◦ Use the Program Exit date as the start date and the First Year Monitoring date as the end date to determine the student's status. ◦ Use the day after the First Year Monitoring date as the start date and the Second Year Monitoring date as the end date to determine the student's status. ◦ Do not send a record if the student's Second Year Monitoring date is before the configured year. • Do not send a record if the enrollment is in a calendar marked as Exclude. • Do not send a record if the enrollment is in a school marked as Exclude. • Do not send a record if the enrollment is marked as No Show.
Post	<p>Multiple Enrollments - A new record will be created for each enrollment change found. Compare enrollment Start/End Dates against EL Identified/Program Exit Dates to produce a complete set of records.</p> <p>Exception: Ignore enrollment changes if End Status is mapped to an Ed-Fi Code = SC and SchoolID did not change.</p>
Delete/Post	<p>When any field part of the natural key is changed:</p> <ul style="list-style-type: none"> • Identified Date
Put	<p>When any field not part of the natural key is changed:</p> <ul style="list-style-type: none"> • End Date • englishLanguageProficiencyAssessments • languageInstructionProgramServices
Delete	All enrollments are deleted for a student.
Delete	If the student's enrollment is marked as No Show.
Delete	If the student's EL record is no longer eligible to report based on Identified Date, Exit Date, or EL Status.

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

Action	Trigger
Post/Delete	<p>Natural Key changes:</p> <ul style="list-style-type: none"> • LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported. • If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers. • If the Program Name or Program Type Descriptor mapping changes and a resync is completed. • If the Identified Date of the EL program record changes.
Delete	Cascading Deletes: N/A there are no dependent resources.

Scope Year Logic

Business Rules
