Last Modified on 10/21/2024 8:22 am CDT

This educational entity represents the cumulative record of academic achievement for a student.

## Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>Report a Student Academic Record instance for each school year in which the student has a transcript record, and they have a Student School Association record for the configured year.</p> <ul style="list-style-type: none"> <li>When Term Type cannot be determined on a Transcript record, provide an error with the following message: "Could not identify a valid term type for transcript record".</li> <li>Post to update the Cumulative Earned Credits and Cumulative Attempted Credits fields when the Attempted and Earned Credit fields are updated, or a new transcript record is added/deleted with an Attempted/Earned Credit Value that is not null and is greater than 0.</li> <li>Do not send a record if the transcript's score is null.</li> </ul>
Post/Put	<p>When a student is given a Diploma Date and Diploma Type.</p> <ul style="list-style-type: none"> <li>Only post for the records in the Student Academic Record (SAR) and configured year with which the Diploma Date is associated.</li> <li>If the student already has SAR records from posted Transcript records, update existing records with the Diploma information.</li> <li>If all of the student's transcript records are deleted, a new SAR will post from the Diploma Record.</li> <li>If the student does not have any SAR records from posted Transcript records, create one record with the Term Descriptor that is aligned to the Term in which the Diploma Date occurs.</li> <li>If the Term Descriptor cannot be determined, an error with the following message displays, "Could not identify a valid term type for diploma record".</li> <li>If the Diploma date and/or Diploma Type fields are made NULL, the SAR record will delete.</li> </ul>
Delete	If records are posted from course transcript records and no Diploma information exists, all Student Academic Records will delete when a student has only one Student School Association record for a specific Year and all Student School Association records are deleted.
Delete	If a Graduation record is deleted and the student does not have any transcript records that would create a Student Academic Record.
Delete	If the Diploma Date is changed to no longer occur in the configured year and the student does not have any transcript records that would create a Student Academic Record.

## School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Delete	If a resource is toggled to 'OFF' after data has sent and an action is performed that would trigger a delete, that data will remain in the ODS until a resync is done.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync must be done to reflect the changes.

## Natural Key Changes, Cascading Updates, and Deletes Logic

Action	Trigger
Delete/Post	<p>If any part of the Natural Key Changes</p> <ul style="list-style-type: none"> <li>If the District Number changes all data will remain under the old number. The delete tool would need to be used to remove all old data.</li> </ul>
Delete/Post	If an Ed-Fi ID changes, this will happen with the cascading deletes from the Ed-Fi ID Change trigger.
Delete/Post	If the End Year the transcript record or diploma record is aligned to changes.
Delete/Post	If the Term Descriptor is changed.

Action	Trigger
Delete/Post	If the natural key changes all dependent resources will delete/post.
Dependent Resources	Course Transcripts

## Scope Year Logic

Logic
Records will send to each scope year in which the Course Transcript record is posted.
Records will only post to the SAR records for the year the diploma date occurs in but SAR records will post to all scoped years. <ul style="list-style-type: none"> <li>The Diploma Date must be on or after the school year's start date and on or before the school year's end date defined in the School Years editor. If blank, the default start date of 7/1/xxxx and end date of 6/30/xxxx are used.</li> </ul>
Data will only send for years that have a valid configuration.
