Evaluations are used to document the student's educational needs and determine eligibility for special education. This document describes each editor, the section(s) of the print format that includes the entered information, a description of each field on the editor, and any special considerations and instructions for using the editor and fields.

**An evaluation must be created whether or not the student is determined to have a disability.** The school gives a copy of the evaluation summary report, including the documentation of eligibility, to the student's parents. For information on general functionality, navigation, and additional plan and evaluation features, see the core [Plan and Evaluation Information](#) article.

The current format of this document is the **MO EDR 2023**. Evaluation formats are managed using the [Special Ed Eval Types](#) tool.

## Prior Written Notice

The Prior Written Notice editor is used to document attempts to notify the student's parent/guardian regarding the evaluation results determined by the team.

Prior Written Notice Regarding Results of Review of Existing Data

IN PROGRESS

Editor 9 of 9

Used **ONLY** for a Reevaluation When No Additional Data Required

**Agency and Parent Rights and Responsibilities in Regards to Reevaluation when no additional data is required**

Provide parent with notification (verbal or written) regarding evaluation results. If notification given verbally, the content of notification must be documented.

Parents have the right to request an assessment IF the purpose of conducting the assessment is to determine continued eligibility and to determine the educational needs of the child. If the parent requests additional assessments for any other reason (e.g., additional disability identification, updated test results, etc.) the district/agency would consider it a parent request for reevaluation and provide appropriate Prior Written Notice.

Parents must be notified of their right to further assessment, the decision, and the reason for the decision.
