Ed-Fi Configuration

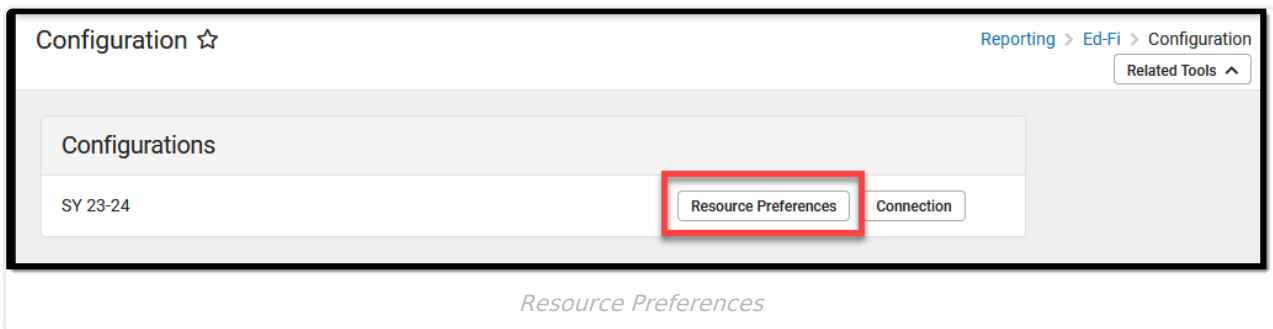

The [Ed-Fi Configuration](#) tool is used to:

- Establish a data connection between Infinite Campus and the Ed-Fi system.
- Map resources to Ed-Fi.

Data should flow properly from Infinite Campus to Ed-Fi when:

- A successful connection is made.
- Resource Preferences are selected.
- Ed-Fi IDs are assigned to users.

Resource Preferences determine the data sent to Ed-Fi. These options apply to all schools within the district. Some mapping screens may be 'read-only' when specific business rules are required by your state. Refer to the current [Indiana Ed-Fi resource articles](#) for these business rules.

Calendars Override Mapping

The Calendars Override Mapping tool allows for mapping multiple calendars to a single calendar. It is located in the **Resource Preferences** section of the **Calendars** resource under **Schedule Information**.

When an override mapping has been entered, the Calendars, Calendar Dates, and Student School Association resources must be resynced.

Calendars Override Mapping

Selecting an override value in any of the droplists below only sends an Ed-Fi Calendars record generated from the Infinite Campus calendar selected in the droplist. Any Calendar Dates or Student School Association records associated to the original calendar will instead reference the override calendar. Only map a calendar to another calendar if they are both tied to the same school.

Filter

School Calendars Schedule Structures

Fill

Override to report as:	
<input type="text"/>	

Campus Elementary School

23-24 Elementary | Main

Override to report as:	
No records mapped.	

Campus High School

23-24 High | Main

Override to report as:	
No records mapped.	

Calendars Override Mapping

Selecting an override value in any drop list only sends an Ed-Fi Calendars record generated from the Infinite Campus calendar selected in the drop list. Any Calendar Dates or Student School Association records associated with the original calendar will instead reference the override calendar. Only map a calendar to another one if they are tied to the **same** school.

Calendars Override Mapping Editor

Data Fields	Description
Filter	
School	Select the school that should be included in the mapping.
Calendars	Select the calendar that should be included in the mapping.

Data Fields	Description
Schedule Structure	Select the schedule structure that should be included in the mapping. Schedule Structures allow different groups of students to have a unique layout for their learning day.
Fill	
Override to reports as	Select the override calendar from the drop list.
Fill	Select the Fill button to associate the override to all of the calendars listed below.

A list of the Schools / Calendars displays indicating the override mapping added or 'No records mapped'.
