This association represents student information that is specific to a student's relationship with an Education Organization.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Business Rules
Post	When an enrollment is created and saved for a person and the enrollment overlaps a configured year. • Does not send a record when the enrollment is in a calendar marked as State Exclude. • Does not send a record when enrollment is in a School marked as State Exclude. • Does not send a record when the No Show checkbox is marked on the enrollment.
Put	When any student data is edited for the person in the Data Elements fields below. When the person's identity record is changed: • Race/Ethnicity • Gender • Home Primary Language When one of the person's household locations is updated/changed: • Mailing, Private When one of the person's household memberships is added/deleted/changed: • Start Date, End Date, Private When any data in the address the student is associated with changes: • PO Box, Number, Prefix, Street, Tag, Direction, Apt, City, State, Zip When a student's IEP is locked or unlocked and/or a student's disability is changed on the IEP, Enrollment or State Special Education tool. When a student's contact information is changed: Email, Other Phone, Work Phone, Cell Phone, Pager, Private. When a student's LEP information is changed: • Program Status, Identified Date, LEP Exit Date, Parent Refused When a student's Response To Intervention Plan is locked/unlocked or the plan name changes. When any of the Student Characteristics change: • A+ Student or Giften/Talented dropdowns are changed Disadvantaged, Displaced Homemaker, Single Parent: If a student's Special Population is changed. Foster Care: A student has a Foster Care record that overlaps the configured year, Start/End Dates are changed so record no longer overlaps configured year, the record is deleted. Parent in Military: A Military Connections record exists for a Guardian of the student, Start/End Dates are changed so record no longer overlaps configured year, the Guardian checkbox is checked/unchecked, the record is deleted
Delete	This record deletes when the student no longer has an eligible enrollment in the District. When the Enrollment is marked as a No Show.

Resource Toggle and Resync Logic

This table describes the Resource Toggle and Trigger logic of this object.

Action	Business Rule
None	When a resource is toggled to off after data has sent, all sent data remains in the ODS but no new data sends.
Resync	When a record is in the Ed-Fi Identity Mapping table and not in the ODS, it is deleted from the Ed-Fi Identity Mapping table.
Resync	When a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it is deleted from the ODS.
Resync	When a mapping is changed in Resource Preferences, a resync needs to be done to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Business Rule
Post/Delete	Natural Key Change: When the District Number/Ed-Fi District Number changes, a delete/post occurs with the cascading deletes from the LEA ID Change triggers. When an Ed-Fi ID changes, this happens with the cascading deletes from the Ed-Fi ID Change trigger.
Delete	Cascading Deletes: N/A - no dependent resources

Scope Year Logic

This table describes scope year logic of this object.

Logic
The record sends to the scope year for the school year the enrollment is associated with. • The enrollment must overlap with the scope year to report. • Data only sends for the years that have valid configuration.
When using data in Campus that has a single date, the following logic is applied to determine the scope year(s) to report the data to. • Current Year: Records is compared to today's date to determine if the record is eligible to report. • Previous Years: The record's date must be on or before the schools year's end date defined in the School Years editor. When blank, the default date of 6/30/xxxx is used. • Future Years: The record's date must be on or after the schools year's start date defined in the School Years editor. When blank, the default date of 7/01/xxxx is used.
When using data in Campus that have start and end dates, the following logic is applied to determine the scope year(s) to report the data to. • Current Year: The records start date must be on or before today's date and the records end date must be on or after today's date. • Previous Years: The record's start date must be on or before the school year's end date and the record's end date must be after the school year's end date defined in the School Years editor. When blank, the default date of 6/30/xxxx is used. • Future Years: The record's start date must be on or before the schools year's start date and the record's end date must be on or after the school year's start date defined in the School Years editor. When blank, the default date of 7/01/xxxx is used.

Student Addresses

Data Element Label	Description	M, C, or O	Database Location
addressTypeDescriptor	The type of address listed for an individual or organization. For example: Physical Address, Mailing Address, Home Address, etc.) All addresses report as Home.	M	
stateAbbreviationDescriptor	The abbreviation for the state (within the United States) or outlying area in which an address is located. Reports the State for the address being reported.	M	Households > Address Info > State address.state
city	The name of the city in which an address is located. • Reports the City for the address being reported.	M	Households > Address Info > City address.city
postalCode	The five or nine digit zip code portion of an address. Pulls the 9-digit zip code for the student household address where the Secondary checkbox is not marked. When the student belongs to > 1 household where the Secondary checkbox is not marked, returns the zip code from the one that was first created (earliest creation date).	M	Households > Address > Zip address.zip
streetNumberName	The street number and street name or post office box number of an address. Reports Address PO Box + Number + Street + Tag + Prefix + Dir.	M	Households > Address Info address.postOfficeBox address.number address.street address.tag address.prefix address.dir

Data Element Label	Description	M, C, or O	Database Location
countyFIPSCode	The Federal Information Processing Standards (FIPS) numeric code for the county issued by the National Institute of Standards and Technology (NIST). Counties are considered to be the "first-order subdivisions" of each State and statistically equivalent entity, regardless of their local designations (county, parish, borough, etc.) Counties in different States will have the same code. A unique county number is created when combined with the 2-digit FIPS State Code. Optional, does not report	O	

Disabilities

Data Element Label	Description	M, C, or O	Database Location
disabilityDescriptor	This descriptor defines a student's impairment. Reports the user-entered value for Primary Disability unless the SPED Exit Date is within the calendar start/end dates OR Enrollments > Special Ed Fields > Special Ed Status is N: No; then report 00: None.	M	Student Information > General > Enrollments > Special Ed Fields > Primary Disability specialEdState.primaryDisability

Electronic Mail

Data Element Label	Description	M, C, or O	Database Location
electronicMailTypeDescriptor	The type of email listed for an individual or organization. For example: Home/Personal, Work, etc.) The Primary Email address reports as Home/Personal. Does not report Secondary Email for students.	M
