Tool Search: Ed-Fi

Student assessments in a legacy STARS-like format.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>When a student's Assessment is saved and the Assessment date falls on or within the config year start and end dates.</p> <ul style="list-style-type: none"> • Only report Assessments that have been assigned either a State Code OR a Federal Code. • Specifically for an Assessment code DYS: <ul style="list-style-type: none"> ◦ Only report if student's current grade is '01'. ◦ If a parent Assessment exists with child Assessments, use the Parent Assessment date to determine if it should be reported. ◦ Then report from the child Assessments which have a score populated. • Report only one record per student Assessment regardless of the number of active enrollments. • Do not send if student does not have an active enrollment on the Assessment start date. • Do not send a record if enrollment is in a calendar marked as State Exclude. • Do not send a record if enrollment is in a School marked as State Exclude. • Do not send a record if enrollment is in a Grade marked as State Exclude. • Do not send a record if enrollment is State Excluded or No Show.
Delete/Post	When a student's Assessment data is changed.
Delete	When a student's Assessment data is deleted.

Scope Year Logic

This table describes scope year logic of this object.

Logic
<p>Student Assessment records will only send to the school year they are aligned</p> <ul style="list-style-type: none"> • Data will only send for the years that have valid configuration.

Object Data Elements
