Ed-Fi v3.X - Assessments Resource Preferences

Last Modified on 10/21/2024 8:22 am CDT

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Assessments resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

> If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Academic Subject Descriptors.

Academic Subject Descriptors	
Attribute Dictionary	System Administration > Custom > Attribute Dictionary > Grading Task > Test > Subject Type
UI Location	Assessment > Test Setup > Subject

Academic Subject Descriptors

2. Select the appropriate **Ed-Fi Code** for the Assessment Identification System Descriptors.

Assessment Identification System Descriptors	
Attribute Dictionary	System Administration > Custom > Attribute Dictionary > Test > Assessment Type

Assessment Identification System Descriptors	
UI Location	Assessment > Test Setup > Assessment Type

Assessment Type Descriptors

3. Click **Save**
