

Ed-Fi V3.X - Student Assessments Resource Preferences

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Assessments resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Assessment Reporting Method Descriptors.

Assessment Reporting Method Descriptors

UI Location

Assessment > Test Setup

Student Assessments (22-23 Ed-Fi Core)
