

Attendance Information for Cross-Site Students

Last Modified on 12/14/2025 8:45 pm CST

[Attendance Logic for Cross-Site Students](#) | [Record Attendance for Cross-Site Student](#) | [Interdistrict Cross-Site Attendance Logic](#) | [Other Attendance Tools](#)

Tool Search: Cross-Site Enrollment

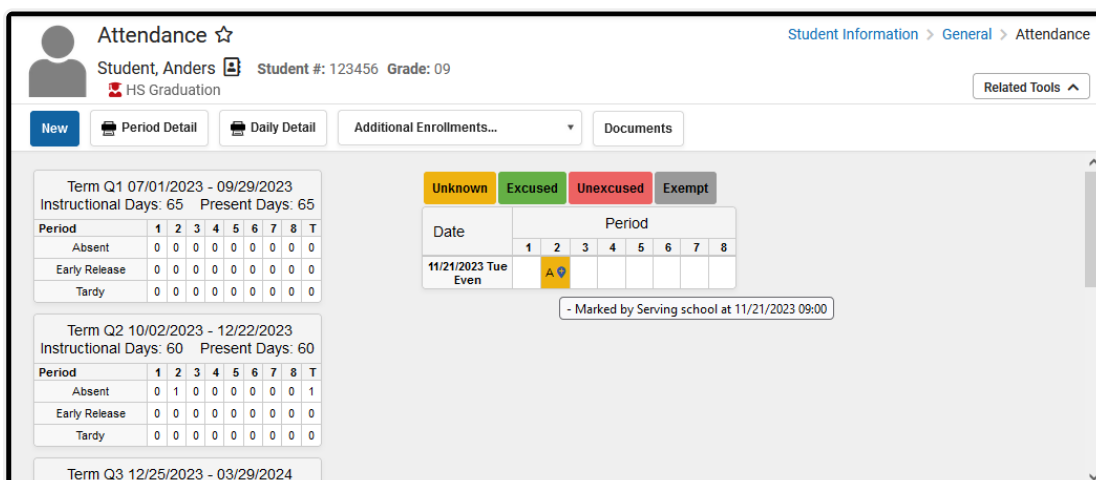

Recording attendance for students enrolled in Cross-Site Courses is performed the same way as attendance would normally be taken at a school, using one of the many available attendance tools in the product - e.g., Attendance Wizard, Classroom Monitor, and Student Attendance.

The same workflow can be followed for teachers recording attendance. The teacher of the Cross-Site Section at the Serving School records attendance for their class, the Attendance Office assigns Attendance Codes to the absences or tardies through the Daily Attendance Tool or Classroom Monitor or modifies student attendance data through the Attendance Entry Wizard or the student's Attendance tool. This information is also displayed at the Home School.

For all Cross-Site Enrollment schools (interdistrict and intradistrict), attendance recorded at the Serving School is the school of record.

See the following for more information:

- [Cross-Site Enrollment Workflow](#)
- [Cross-Site Enrollment Workflow Video Series](#)

The screenshot shows the 'Attendance' tool interface for a student named 'Anders' (Student #: 123456, Grade: 09). The interface includes a navigation bar with 'New', 'Period Detail', 'Daily Detail', 'Additional Enrollments...', and 'Documents'. Below this, there are three term-specific attendance tables for Term Q1 (07/01/2023 - 09/29/2023), Term Q2 (10/02/2023 - 12/22/2023), and Term Q3 (12/25/2023 - 03/29/2024). Each table shows 'Instructional Days' and 'Present Days' counts, along with a grid for recording attendance by period (1-8) for Absent, Early Release, and Tardy. A date picker is set to 11/21/2023, and a status dropdown is set to 'Unknown'. A note indicates the student was marked by the serving school at 11/21/2023 09:00.

Student Attendance Tool - Cross-Site Absence

Attendance information recorded at either the Home School or the Serving School displays on the student's Attendance tool for the date and period in which it was recorded and can be viewed by users at the Home School or Serving School when proper tool rights are assigned.

A Cross-Site Indicator displays next to the event and hovering over that entry indicates it was recorded by which school - the Home School or the Serving School.

When teachers record attendance, they are only choosing an Attendance Status of Absent or Tardy. The Attendance Office is responsible for assigning an Attendance Code to the attendance entered by the teacher.

Attendance Codes DO NOT transfer from one school in the district to another UNLESS the Attendance Codes were created this way. This means the Home School may have different Attendance Codes than the Serving School.

Both the Home School and the Serving School need to reconcile the Attendance Codes for the Cross-Site Students.

Attendance Logic for Cross-Site Students

[Serving School Enters Attendance Information](#) | [Home School Enters Attendance Information](#)

As mentioned previously, **the Serving School is the school of record for attendance data**. When the Serving school has provided an Attendance Status or reconciled the attendance record, regardless of whether the Home school has sent any initial attendance, the Home School is no longer able to update that attendance record.

- Any initial status of absent or tardy coming from the Home School is accounted for in the Serving School unless the Serving School has already applied a status.
- Attendance status changes cannot be made at the home school.
- Additional changes from the Home School where the Serving School has already reconciled the status or added their own status not accounted for at the Serving School.
- When the Serving School enters attendance for the day BEFORE the Home School enters attendance, the Home School can only change the code assigned to the entry. Available selections for the code are related to the Status assigned to the record.

The following tables define what occurs when Cross-Site students' attendance is entered at the Serving School and at the Home School, and vice versa.

Serving School Enters Attendance Information

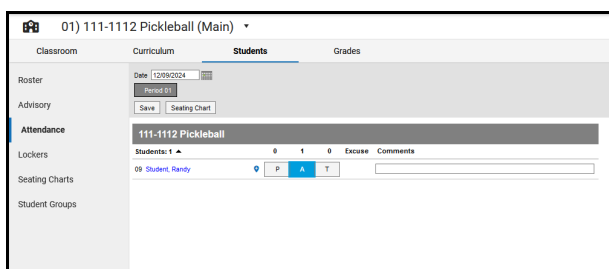

Entering attendance for a Cross-Site Student at the Serving School is no different than entering attendance for non-Cross-Site Students.

Serving School	Home School
Classroom Attendance (Teacher Entry) - New Attendance Entry	

Serving School

The teacher records attendance for Cross-Site students enrolled in their classes from the [Teaching Center](#) or the [class roster](#).

Teachers can assign a value of A (Absent) or T (Tardy) and enter a Comment when known.

Once saved, that record displays on the student Attendance tool.

Home School

A new attendance record is created for that student at the Home School.

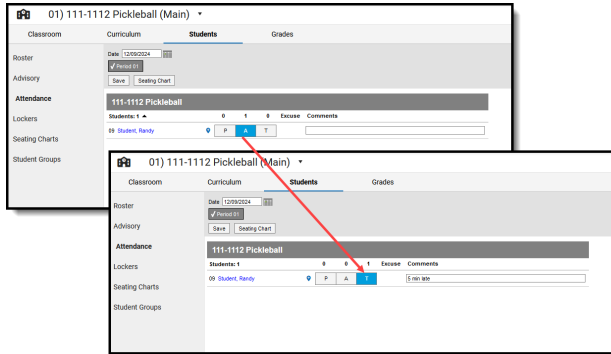

This is reflected on the student's Attendance tool with a status of A or T, displayed in yellow (since there is no excuse associated with that entry) and with the Cross-Site indicator in black. Hovering over that entry lists any comments the teacher entered and that it was entered by the Serving School with the date and time it was entered.

Classroom Attendance (Teacher Entry) - Change to Entered Attendance

Serving School

The teacher modifies previously entered attendance for the class, changing a Cross-Site student's attendance to Absent to Tardy or Tardy to Absent, or Present to Tardy or Absent, and updates the Comment as needed.

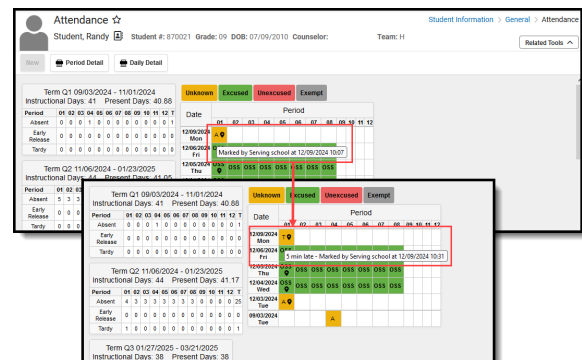

The teacher can also update an attendance record from Absent or Tardy to Present.

Home School

These changes are pushed to the Home School and the attendance record is updated.

The Cross-Site indicator displays the updated entry. Hovering over that entry lists any comments the Serving School teacher entered and the date and time it was entered.

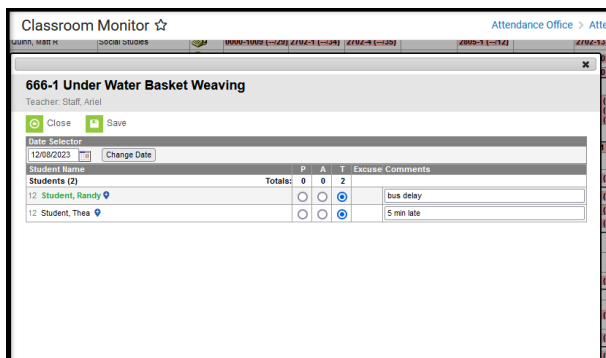

When the attendance entry is changed from Absent or Tardy to Present, a P (for Present) displays for that day.

The attendance record at the Home School CANNOT be modified.

Classroom Monitor (Attendance Office)

Attendance Office enters attendance for the teacher, choosing either A or T (or P) for the students, and enters Comments when known.

An attendance record is created for that student at the Home School.

This is reflected on the student's Attendance tool and has a status of A or T, displayed in yellow (since there is no excuse associated with that entry) and with the Cross-Site indicator in black. Hovering over that entry lists any comments the attendance office at the Serving School entered and the date and time it was entered.

Section Attendance (Attendance Office)

Serving School

Attendance Office enters attendance for the teacher, choosing either A or T (or P) for the students, and enters Comments when known.

The attendance record is NOT assigned the Attendance Code from the Serving School. The Home School needs to audit the attendance entries and assign appropriate Attendance Codes to those events.

Home School Enters Attendance Information

In this scenario, the parent/guardian has notified the Home School their student is absent (or late) for the day (or a period).

When a Cross-Site student has an Attendance event that is recorded by the Home School, or when an Attendance event is deleted, that information is pushed to the Serving School.

Because the Home School initiates the Attendance entry, no further action is needed by the Home School.

The Serving School does need to reconcile the Attendance entry by choosing that school's Attendance Code for the event. For example, when the Home School assigns a Tardy/Unexcused event for the student because they were 10 minutes late, the Serving School may call that Excused because their time for changing to an Unexcused Tardy is 15 minutes.

Record Attendance for Cross-Site Student

[Record Attendance at the Serving School](#) | [Record Attendance at the Home School](#)

The following scenario records attendance for a student enrolled at West High School for the entire day (Home School) except for one class where they go to East High School (Serving School).

On the Enrollment tool, notice West High School's primary enrollment and the East High School's Cross-Site Enrollment.

Teacher Attendance for Cross-Site Students

The teacher can click on their names and view Student Details and Contact Information.

Once the attendance is entered and saved, the student's Attendance record is updated to reflect the entry. Since there is no excuse associated with attendance recorded by the teacher, the attendance event displays in yellow (until an excuse is added by the attendance office).

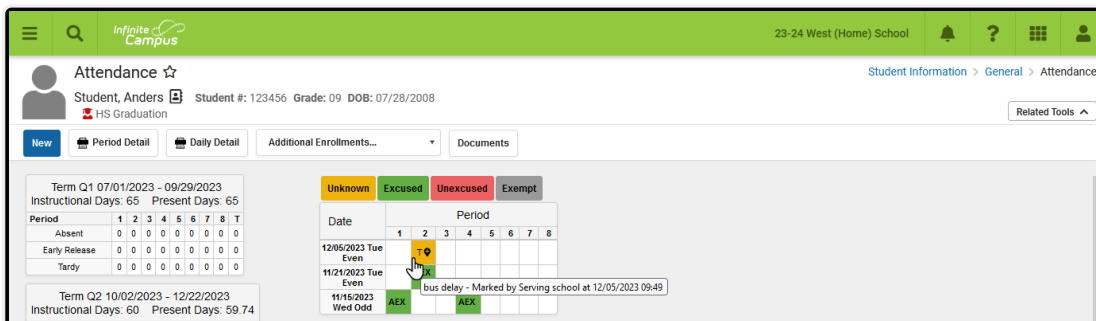

Viewing the student's attendance at the Serving School looks like this:

Student Attendance Display at the Serving School

Attendance Office staff at the Serving School can modify the entry to assign an Attendance Code to the event, following school and/or district policy. This can be done through any of the standard attendance tools available to them - Daily Attendance, Classroom Monitor, etc.

Viewing the student's attendance at the Home School looks like this, with the Cross-Site indicator next to the entry and the hover text indicates it was recorded at the serving school:

Student Attendance Display at the Home School

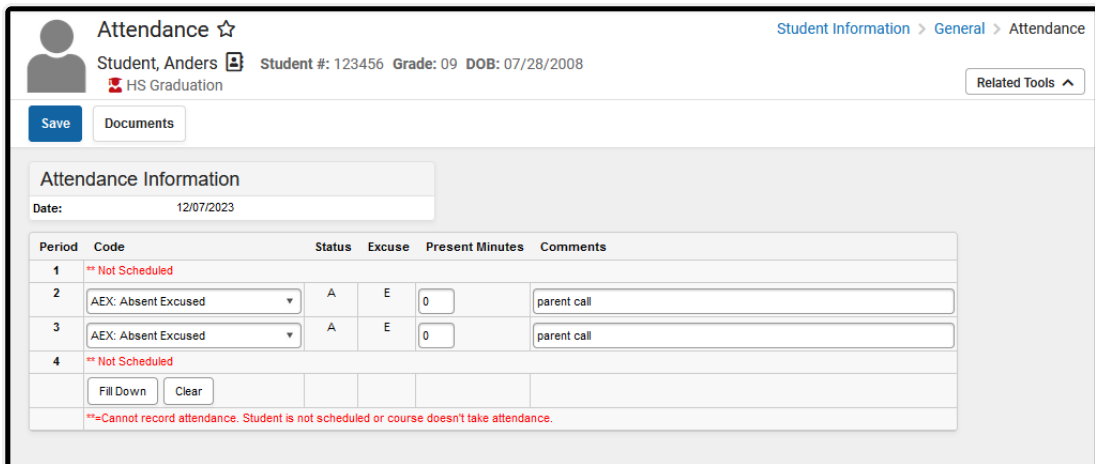

Record Attendance at the Home School

When a student is known to be absent or tardy, a standard practice is for a parent/guardian (or perhaps the student, depending on district policy and age) to call the school's Attendance Office and report the student to be out or late for a particular reason. This practice does not change for Cross-Site students.

Starting at the **Home School**, the student is marked absent for the classes occurring at their Home School AND at the Serving School. This alerts the Serving School teacher that the student is out for the day.

From the [Student Attendance](#) tool:

1. Click **New**. The **Attendance Information** editor displays.
2. Select the appropriate **Attendance Code** from the dropdown list for the periods.
3. Enter the appropriate **Comments** for the student's absence.
4. Click **Fill Down** to apply the selected Attendance Code and Comments to all periods.
5. Click **Save** when finished. The entry is listed on the main view of the Attendance tool.

Student Attendance Tool - Home School Entry Displayed at Serving School

The Attendance Office can use the [Daily Attendance](#) tool to update this entry to select an appropriate and corresponding Attendance Code for the Serving School records.

1. Click the Attendance entry for the Cross-Site Student.
2. Select the appropriate **Attendance Code** from the dropdown list for that entry. The

Comment entered by the Home School is already entered.

- Click **Fill Down** to apply that code to other Cross-Site Periods they may be scheduled for at the school.
- Click **Save** when finished.

Daily Attendance Processing at the Serving School

The Daily Attendance list of entries now displays the Attendance Code instead of the Absent entry.

Student	Number	Grade	0	1	2	3	4	5	6	7	WIN	ACT
Details Student, Adam	789123	12			TEX					AUX		
Details Student, Anders	123456	09			AEX							
Details Student, Bryan	234567	09			AEX					TX		
Details Student, Bryanna	345678	09			AX							

Daily Attendance View AFTER Assigning Attendance Code

The Student Attendance tool also updates to list the Attendance Code. The hover still indicates the entry was recorded by the Home School.

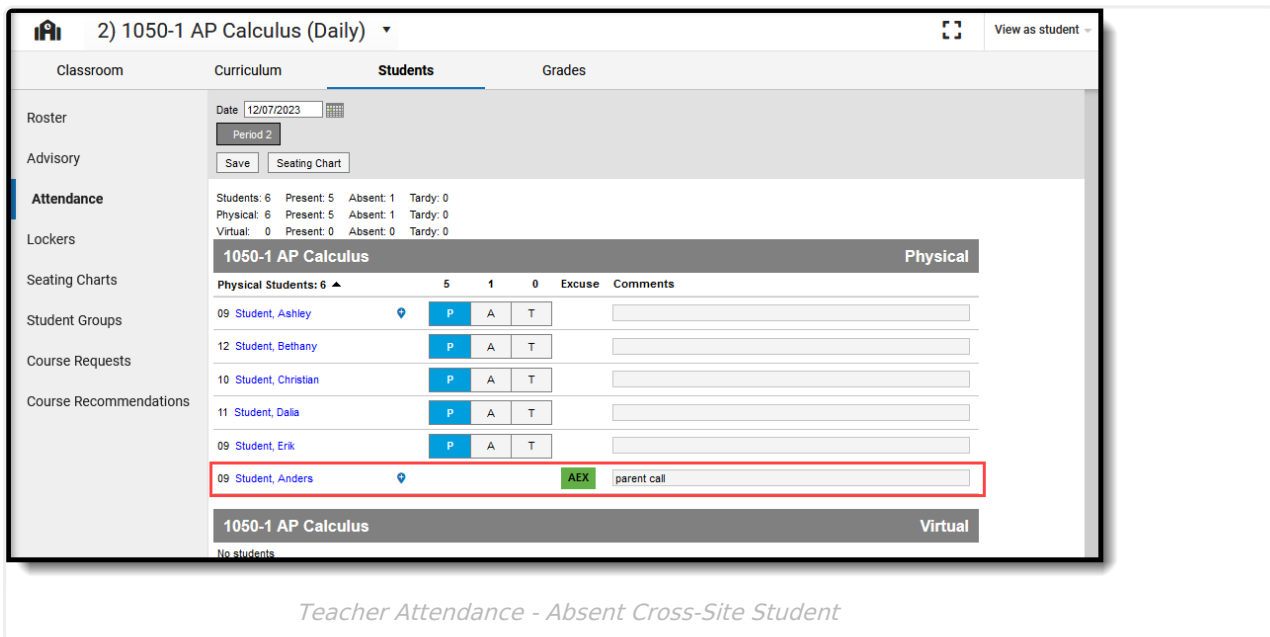

Term	Start Date	End Date	Instructional Days	Present Days

Student Attendance View AFTER Assigning Attendance Code

The teacher of the Cross-Site Course can also see that the student has already been marked

absent for the day.

Teacher Attendance - Absent Cross-Site Student

Interdistrict Cross-Site Attendance Logic

Additional logic is used when Cross-Site Enrollment is between multiple districts. The steps to record attendance is the same.

The Serving School is the school of record. Because of this, the following attendance tools have added logic to prohibit Home School users from modifying attendance data once the Serving School has processed it:

- [Student Attendance](#) - The Excuse field only includes excuses with the same Status as the locked Attendance record. Radio buttons to change the status are disabled.
- [Attendance Entry Wizard](#) - Changing a Status on a locked Attendance record alerts the user that the record cannot be changed. Radio buttons to change the status on the locked record are disabled.
- [Section Attendance](#) - Radio buttons to change the status on the Attendance side panel are disabled.
- [Teaching Center](#) - Radio buttons to change the status using Take Attendance or the Seating Chart are disabled.

When the Serving School records attendance...

When the Serving School saves an attendance event, a trigger occurs to share (push) that data with the Home School, and the Home School's database is updated with the new record.

The attendance record only has a Status of either A (absent) or T (tardy); an attendance code or

excuse is not populated, but any comments the Serving School recorded are populated. A change in the attendance status (from Absent to Tardy or Tardy to Absent) at the Serving School is pushed to the Home School, and the record is updated there. Data is not sent to the Home School when the Serving School assigns a Code/Excuse to the attendance event using Daily Attendance.

The Home School must follow the district's process for assigning Codes/Excuses. This can be done using Daily Attendance, looking for all Cross-Site Course Sections that have attendance events. The assigned Code/Excuse made at the Home School is not pushed to the Serving School.

Data is shared with the Home School when:	Data is NOT shared with the Home School when:
<ul style="list-style-type: none"> • A new attendance event is created. • An attendance event is deleted. • The status of an attendance event is modified. • An Enrollment record is ended before the date of the attendance record, causing the attendance record to be deleted. • A roster record is ended before the date of the attendance record, causing the attendance record to be deleted. 	<ul style="list-style-type: none"> • An Excuse or Attendance Code is assigned to the attendance event.

When the Home School records attendance...

When the Home School saves an attendance event, a trigger occurs to share (push) that data with the Serving School, and the Serving School's database is updated with the new record. Present, Tardy, and Early Release records are not shared.

The attendance record only has a Status of A (absent); an attendance code or excuse is not populated, but any comments the Home School recorded are populated.

The Serving School must follow the district's process for assigning Codes/Excuses. This can be done using Daily Attendance, looking for all Cross-Site Course Sections with attendance events. The assigned Code/Excuse made at the Serving School is not pushed to the Serving School.

Data is shared with the Serving School when:	Data is NOT shared with the Serving School when:
<ul style="list-style-type: none"> • A new attendance event is created. • An attendance event is deleted. • The status of an attendance event is modified. 	<ul style="list-style-type: none"> • An Excuse or Attendance Code is assigned to the attendance event.

Other Attendance Tools

Attendance can be recorded for Cross-Site students through any available attendance tools,

following district procedures and policies. These tools are as follows:

- [Attendance Entry Wizard](#)
- [Classroom Monitor](#)
- [Course Section Attendance](#)
- [Daily Attendance](#)

The functionality of those tools has not changed; rather, the addition of Cross-Site indicators displayed next to student names to identify Cross-Site students in the Serving School where necessary.
