

# Online Registration Portal Settings

Last Modified on 12/14/2025 8:45 pm CST

## Tool Search: Online Registration

The Online Registration Portal Settings allows districts to customize the name of the Portal tab within Campus Student and Campus Parent Portals, as well as enable or disable the tool.

Online Registration ☆

System Settings > Portal Preferences > Online Registration

This tooling is enabled or disabled at the district level. Changes made here will be applied to all schools.

Online Registration Portal Settings

Portal Tab Name	Enable Online Registration portal tab
Online Registration	<input checked="" type="checkbox"/>
Force all required OLR configurations in the current active school year to be completed before accessing the Parent Portal	
<input checked="" type="checkbox"/>	

**Save**

Settings	Description
<b>Portal Tab Name</b>	The display name for the Online Registration tab within the Campus Student and Campus Parent portals.
<b>Enable Online Registration portal tab</b>	If this is enabled, it means that Online Registration is available on the Campus Student and Campus Parent for that district.
<b>Force all required OLR configurations in the current active school year to be completed before accessing the Parent Portal</b>	If this is enabled and a configuration is set as required in <a href="#">OLR Setup</a> , Online Registration will be required to be completed before parents can use other features in the Parent Portal.  <div style="background-color: #ffffcc; padding: 10px; border-radius: 5px;"><p>This setting only works for configurations in the active school year.</p></div>
