Online Registration Portal Settings

Last Modified on 10/21/2024 8:20 am CDT

Tool Search: Online Registration

The Online Registration Portal Settings allows districts to customize the name of the Portal tab within Campus Student and Campus Parent Portals, as well as enable or disable the tool.

Settings	Description
Portal Tab Name	The display name for the Online Registration tab within the Campus Student and Campus Parent portals.
Enable Online Registration portal tab	If this is enabled, it means that Online Registration is available on the Campus Student and Campus Parent for that district.
Force all required OLR configurations in the current active school year to be completed before accessing the Parent Portal	If this is enabled and a configuration is set as required in OLR Setup, Online Registration will be required to be completed before parents can use other features in the Parent Portal. This setting only works for configurations in the active school year.
