

Transcripts (Indiana)

Last Modified on 05/06/2026 12:13 pm CDT

Tool Search: Transcripts

A transcript is a historical record of a student's performance in a course. The information on the transcript can vary from district to district, depending on district preferences. Each district records students' grades on transcripts and report cards. Grading information is connected to a student's course schedule.

The **Additional Information** section provides further details on the transcript entry, including localized fields (used for state reports) and district-defined fields (created by the district). This section is collapsible or expandable by clicking the minus/plus sign on the right-hand side. Transcript fields that are specific to the state of Indiana are described below.

See the core [Transcripts](#) article for information on core fields, necessary tool rights, available Ad hoc fields, and general Transcript processes.
