Relationship Associations are reported from the Enrollment and locked IEPs. This is to identify any relationships a student may have with an organization outside the enrollment.

Object Triggering Logic

The tables below describe the logic for triggering syncing of this object. Expand one of the areas below to see full requirements:

| Action | Trigger |
|--------|--|
| Post | <p>When an enrollment is created and saved for a person and the enrollment overlaps a configured year.</p> <ul style="list-style-type: none"> Does not send a record when an enrollment is in a calendar marked as State Exclude. Does not send a record when an enrollment is in a School marked as State Exclude. Does not send a record when the No Show checkbox is marked on the enrollment. |
| Put | <p>When a student's enrollment information changes on any of the following fields:</p> <ul style="list-style-type: none"> State School Number Funding School Override Attendance School Override Attendance School Override (AYP Override 1) Local End Status |
| Delete | When the student no longer has an eligible enrollment in the district. |
| Delete | When an existing enrollment is marked as State Exclude or No Show. |

Scope Year

Business Rules

- When a new IEP is created, the record reports in the Scope Year that the IEP Start Date overlaps with.
- The start date must be on or before the School Year End Date. When School Year End Date is NULL, 6/30/XXXX is used as the default date.
 - Data only sends for the years that have valid configuration.

Business Rules

When the record is triggered from enrollments, the record sends to the scope year for the school year the enrollment is associated with.

- Data only sends for the years that have valid configuration.
