Health vaccines and their associated compliance listings are based on state guidelines. While Infinite Campus maintains standard guidelines for all states, districts have the ability to enter additional compliances. The following information describes vaccine compliance rules as defined by the Delaware Department of Health.

For more information on the creation, modification or deletion of vaccine compliances, see the [Vaccine Setup](#) page.

The Delaware Immunization Compliance Rules are read-only and cannot be modified.

**Read** rights allow full access to Vaccines for states with hard-coded vaccine rules.

For more information about Tool Rights and how they function, see this [Tool Rights](#) article.
