The Student Participation End of Year report collects information on the services students in Special Education receive. See the [Colorado Special Education](#) articles for more information.

Unless noted otherwise, data reports from the student's most recent enrollment closest to the end date of report generation.

The screenshot shows the 'SPED IEP Interchange' report configuration page. The interface includes a search bar and navigation menu at the top. Below the title, there is a description: 'This tool will extract data to complete the Special Education IEPs Interchange files.' The main area is divided into two sections: 'Extract Options' and 'Select Calendars'. In the 'Extract Options' section, the 'Report Type' is set to 'Student Participation End of Year', 'Report Format' is '2022-2023 Format', 'Start Date' is '07/01/2021', and 'End Date' is '06/30/2022'. The 'Report Format' dropdown is set to 'CSV'. In the 'Select Calendars' section, the user has selected 'active year' and a list of calendars is shown: 'IES 21-22', 'IHS 21-22', and 'IMS 21-22'. At the bottom of the form are buttons for 'Generate Extract' and 'Submit to Batch'. Below the screenshot, the text 'SPED IEP Interchange - Student Participation End of Year' is displayed.

Report Logic

A student is included in the report when at least ONE of the following is true:

- At least one date - Special Ed Start Date, Special Ed End Date - falls within the reporting period. OR
- The student has an active and locked IEP AND at least one date of the plan falls within the reporting period. OR
- The student has an active and locked Evaluation AND at least one date of the plan falls within the reporting period.
 - If a student has an active and locked Evaluation with Part C Referral of 06 AND Eligibility & Services of 04 during the reporting period AND has an IEP with Services that were active during the reporting period, then the most recent service IEP is used to calculate the Service Hours per Week, Total School Hours per Week, Extended School Year Services. See the [Hours of Service](#) table for conversion values.

Only one record per administrative unit code reports for the student.

Records are not included when:

- The student's enrollment record is marked as a No Show.
- The enrollment record is marked as State Exclude.
- The Grade Level of enrollment is marked as State Exclude.
- The Calendar selected is marked as State Exclude.

Students who have an ILP or other plan type that is not an IEP are NOT included in this report.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.
