[Object Triggering Logic](#) | [Object Data Elements](#)

Tool Search: Ed-Fi

This educational entity represents an overall score or assessment tied to a course over a period of time (i.e., the grading period). Student grades are usually a compilation of marks and other scores.

Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger
Post	<p>When a grade is posted to a Grading Task that is mapped to an Ed-Fi Grade Type and marked as State Reported:</p> <ul style="list-style-type: none"> • Standards do not report to Ed-Fi. • Does not send when the Course is marked Inactive (not marked Active) or State Excluded. • Does not send when the Calendar Exclude checkbox is marked. • Does not send when the student's Enrollment is in a School marked as Exclude. • Does not send when the student's Enrollment is marked as No Show or State Exclude. • Checks to see when the student has a Student Section Association in the Ed-Fi identity Mapping table before sending. <ul style="list-style-type: none"> ◦ When the Student Section Association exists, continues with processing the record to Ed-Fi. ◦ When the Student Section Association does not exist, the record goes to the Error Log with a message stating: Student (First Name Last Name, Ed-Fi ID) does not have a Student Section Association record for the course (Course Number Course Name). This record must exist before Grades can be sent. • The Grading Task must be mapped to a Grading Period to report. <ul style="list-style-type: none"> ◦ Reports to the Grading Period that overlaps the Term to which the grade is Posted. ◦ The end date of the Grading Period must be on or after the Term Start Date and on or before the Term End Date based on the Term to which the grade is posted. ◦ When the Grade is aligned to more than one Grading Period that overlaps the Term, the grade reports to all eligible Grading Periods.
Put	When a grade is updated on a Grading Task that is mapped to an Ed-Fi Grade Type.
Delete	When a grade is deleted from a Grading Task that is mapped to an Ed-Fi Grade Type.
Delete	When the Student Section Association record is deleted for the school in which the grades are associated.
Delete/Insert	When any field that is part of the Natural Key is changed.

School Exclude, Calendar Exclude, Resource Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Business Rule
None	When a resource is toggled to OFF after data has sent, all sent data remains in the ODS but no new data sends.
Delete	When a resource is toggled to OFF after data has sent and an action is performed that would trigger a delete, that data remains in the ODS until a resync is done.
Resync	When a record is in the Ed-Fi Identity Mapping table and not in the ODS, it is deleted from the Ed-Fi Identity Mapping table.
Resync	When a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it is deleted from the ODS.
Resync	When a mapping is changed in Resource Preferences, a resync is needed to reflect the changes.
Resync	When the Rubric is changed after mapping, a resync is needed to reflect the changes.

Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Delete/Post	Natural Key change: When the Natural Key of the Grading Period Reference or Student Section Association changes, a delete/post occurs.
Delete/Post	When the Grade Type Descriptor is changed or removed.

Scope Year Logic

This table describes scope year logic of this object.

Logic
Grades post to the scope year to which the course's calendar is aligned. <ul style="list-style-type: none"> Data only sends for the years that have valid configuration.
