Object Triggering Logic

This table describes logic for triggering syncing of this object.

Action	Trigger

Post	The student must have a Student School Association record in the configured year and meet the following EL record criteria:
	• The student has a EL Program Status of EL.
	• The student has a EL Program Status of Exited EL and the First Year Monitoring or Second Year Monitoring dates overlap a configured year. Uses today's date to determine status.
	    ◦ Uses the Program Exit date as the start date and the First Year Monitoring date as the end date to determine the student's status.
	    ◦ Uses the day after the First Year Monitoring date as the start date and the Second Year Monitoring date as the end date to determine the student's status.
	• Does not send a record when enrollment is in a calendar marked as Exclude.
	• Does not send a record when enrollment is in a school marked as Exclude.
	• Does not send a record when enrollment is marked as No Show.

Delete/Post	When any field part of the natural key is changed: • Identified Date • District Number
Put	When any field not part of the natural key is changed: • languageInstructionProgramServices
Delete	All enrollments are deleted for a student.
Delete	When the student's enrollment is marked as No Show.
Delete	When the student's EL record is no longer eligible to report based on Identified Date, Exit Date or EL Status.

Delete	There are no dependent resources.
