This association represents the Title I Part A program(s) that a student participates in or from which the student receives services.

## Object Triggering Logic

This table describes logic for triggering syncing of this object.

In order for a Title 1 service to report, at least one of the Title 1 service checkboxes must be marked **AND** the Targeted Assistance checkbox must be marked on the student's enrollment in Student Information > General > Enrollments > State Reporting Fields.

Action	Trigger
Post	<p>When an enrollment is created and saved, and the Title 1 service checkbox is checked.</p> <p>Only report a single record per school, per student, per enrollment Start Date.</p> <p>If there are multiple enrollments in the same school that <b>qualify</b>, and have the same enrollment Start Date, report based on primacy of Service Type:</p> <ol style="list-style-type: none"> <li>1. P: Primary</li> <li>2. S: Partial</li> <li>3. N: Special Ed</li> </ol> <p>If there are multiple enrollments in the same school that qualify, with the same Service Type and enrollment Start Date, report the newest start date.</p> <p>Do not report if the student's Enrollment has any of the following indicated:</p> <ul style="list-style-type: none"> <li>• No Show</li> <li>• Calendar exclude</li> <li>• School exclude</li> </ul> <p>If the service type is being changed for the enrollment record being reported in this resource, report a new record for the new properly reported enrollment, if previously not the reporting enrollment.</p> <p>When any field part of the natural key is updated</p>
Put	<p>Update the record if any other fields in this resource are changed that are not part of the natural key</p> <p>When any enrollment record that previously had the Title 1 service checkbox selected &amp; saved, update the titleIPartAProgramServices field</p>
Delete	<p>If the service type is being changed for the enrollment record being reported in this resource, delete the record if the enrollment is no longer the reported enrollment.</p>
Delete	<p>When any field part of the natural key is updated.</p>
Delete	<p>When any enrollment record that previously had the Title 1 service checkbox selected &amp; saved, and all Title 1 services in that enrollment record are subsequently unchecked &amp; saved, delete the record.</p>
Delete	<p>When any enrollment record that previously had the Title 1 service checkbox selected &amp; saved, and the enrollment record is subsequently deleted, delete the record.</p>

## School Exclude, Calendar Exclude, Resource

## Toggle and Resync Logic

This table describes the School Exclude, Calendar Exclude, Resource Toggle and Resync logic of this object.

Action	Trigger
None	If a resource is toggled to 'OFF' after data has sent, all sent data will remain in the ODS but no new data will send.
Resync	If a record is in the Ed-Fi Identity Mapping table and not in the ODS, it will be deleted from the Ed-Fi Identity Mapping table.
Resync	If a record is in the ODS and it does not have a matching record in Campus or the Ed-Fi Identity Mapping table, it will be deleted from the ODS.
Resync	If a mapping is changed in Resource Preferences, a resync will need to be done to reflect the changes.
Resync	Programs will only be update/deleted if a mapping is changed after a resync is completed and 'All Schools' is checked on resync. Programs are at the district level and students in another school may have a Student Program Association record that references the Program.

## Natural Key Changes, Cascading Updates, and Deletes Logic

This table describes the Natural Key Changes/Cascading Updates and Deletes logic of this object.

Action	Trigger
Post/Delete	Natural Key changes: <ul style="list-style-type: none"> <li>• LEA Reference - District Numbers cannot change after data has been sent. If a district number changes, we would expect an Ed-Fi error and this change would not be supported.</li> <li>• If an Ed-Fi ID changes, a delete/post will occur with the cascading deletes from the Ed-Fi ID Change triggers.</li> <li>• If the Program Name or Program Type Descriptor mapping changes and a resync is completed.</li> <li>• If the Start Date of the program record changes.</li> </ul>
Delete	Cascading Deletes: N/A - no dependent resources.

## Scope Year Logic

This table describes scope year logic of this object.

Logic
The record will send to any year the Title 1 record overlaps with.
Data will only send for the years that have valid configuration.

## Resource Preferences
