Tool Search: Extended Learning Opportunities

Extended (or Expanded) Learning Opportunities are structured learning environments that occur outside of the traditional school day through before- and after-school, summer, and extended-day, -week, -year programs. These programs offer more personalized learning opportunities for students in areas such as the arts, civic engagement, and science, technology, engineering, and math (STEM), as well as mentorship and general academic support.

This tool allows users to add, edit, or delete ELO student records. Users may also print a summary of all ELO records for the selected student.

Use the [Federal/State Program Updater](#) tool to import and add ELO information to this tool.

The screenshot shows the 'Extended Learning Opportunities (ELO) Editor' interface. At the top, it displays the student's name 'Student, Maggie' and various details: Student #: 123456, Grade: 09, DOB: 10/07/2008, Counselor: Andrea Staff, Academic status, and LHS Class of 2027. Below this is a toolbar with icons for New, Save, Delete, Print Summary Report, and Documents. A table titled 'Extended Learning Opportunities (ELO)' contains one record with a Start Date of 01/29/2024 and a count of 1 under 'Innovative Learning Opportunities'. Below the table is a form for editing the selected record, with fields for Start Date (01/29/2024) and End Date. A dropdown menu for 'Innovative Learning Opportunities' is set to '1: Student is participating with less than 360 hours of instruction'. The bottom of the form shows the modification history: '- Modified by: Administrator, System 01/29/2024 10:46 AM'.
