

# Hall Pass Release

Last Modified on 02/01/2024 2:15 pm CST

The Campus Workflow Suite now includes our streamlined Hall Pass tools in this latest release. Located in the Attendance Office module, these new features are designed to empower schools with improved control and efficiency in managing student movements within their district.

## Hall Pass Settings

- Create calendar-based hall pass locations for student pass requests or faculty pass assignments.
- Set a limit on the number of active passes a teacher can have for each location.
- Duration defines the validity period for a pass, ensuring sufficient time for students to move between locations.
- Unique locations, such as a main office or library, can be assigned from any room.
