The Gifted tool tracks a student's participation in Gifted and Talented programming through enrichment, acceleration, and/or advanced curriculum. The term "High Ability" is used in Indiana in lieu of Gifted and Talented.

The state of Indiana defines a [High Ability Student](#) as a student who "performs at, or shows the potential for performing at, an outstanding level of accomplishment in at least one domain when compared to other students of the same age, experience, or environment; and is characterized by exceptional gifts, talents, motivation, or interest".

Fields used in the Gifted tool specific to **Indiana** are described below. Please see the core [Gifted and Talented](#) article for more information.

The screenshot shows the Gifted tool interface. At the top, there's a header with a user icon, the title "Gifted ☆", and navigation links: "Student Information > Program Participation > Gifted". Below this, a student profile is shown: "Student, Example [ID]", "Student #: 123456789", "Grade: 10", "DOB: 01/01/2008". There are buttons for "New", "Save", "Delete", and "Print Summary Report". A "Related Tools" dropdown is also present. The main area is divided into two sections. The top section is the "Gifted Editor" with a table header: "Start Date", "End Date", "Program Status", "High Ability Type", "Reason Exited", and "Created By". The bottom section is the "Gifted Detail" form, which includes fields for "Start Date", "End Date", "Program Status", "High Ability Type", "Reason Exited", and a "Comments (up to 255 characters)" text area.
