The Gifted tool tracks a student's participation in Gifted and Talented programming through enrichment, acceleration, and/or advanced curriculum. The term "High Ability" is used in Indiana in lieu of Gifted and Talented. The state of Indiana defines a [High Ability Student](#) as a student who "performs at, or shows the potential for performing at, an outstanding level of accomplishment in at least one domain when compared to other students of the same age, experience, or environment; and is characterized by exceptional gifts, talents, motivation, or interest". Fields used in the Gifted tool specific to Indiana are described below. Please see the core [Gifted and Talented](#) article for more information.
