

# Curriculum Details

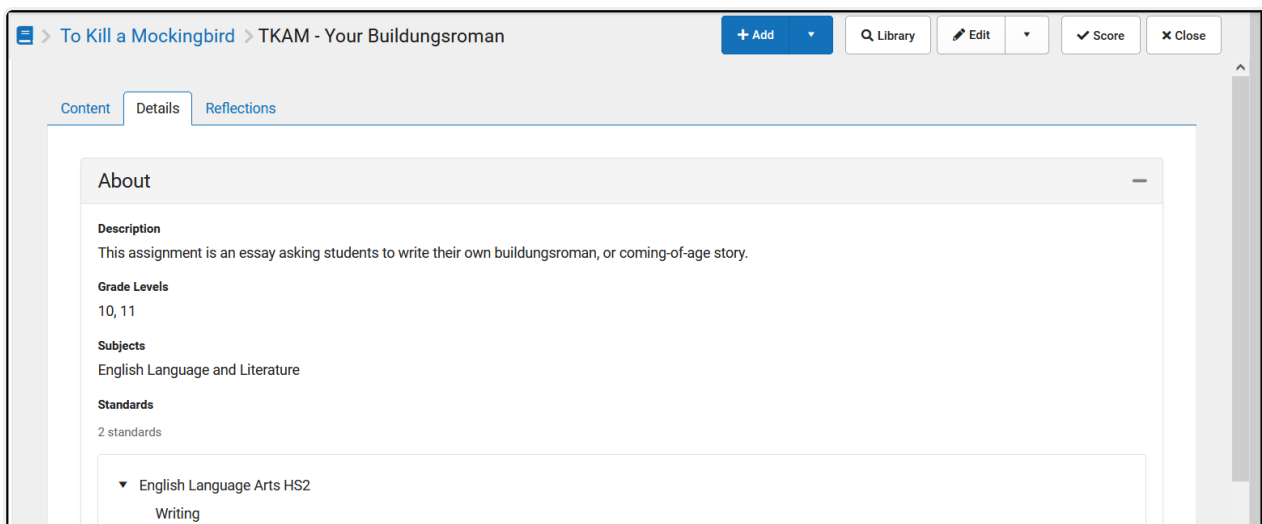

Last Modified on 12/14/2025 8:45 pm CST

[Video](#) | [Add Details](#) | [Considerations for Sharing](#)

Curriculum Details are part of the [Campus Learning](#) premium offering and require the *Enhanced Curriculum* tool right.

**Location:** Tools throughout Instruction, including *Grade Book, Planner > My Planner, Assignment Overview and Progress Monitor > click Details*

Curriculum Details are the metadata used to identify curriculum in the Curriculum Library. Details are entered on the Details tab and can be added to Assignments, Resources, and Folders.

*Curriculum Details provide metadata to help find curriculum in the Library.*

Access to assignments requires tool rights to a grading tool, such as Grade Book, Planner, or Progress Monitor. Additionally, the **Enhanced Curriculum** tool right in Additional Access Rights > Instruction Tools grants access to advanced assignment options. See the [Instruction Tool Rights](#) article for more information.

## Video

## Add Details

1. Open a piece of curriculum, such as an assignment or folder.
2. Click the **Details** tab.

3. Click **Edit**
4. Enter a **Description** about the content of the curriculum.
5. Select the **Grade Levels** and **Subject** of the curriculum.
6. Select **Standards** to which the curriculum applies. These may be aligned to the curriculum for grading, or not. Search for standards if desired. The *Context* options indicate which standards are currently being shown - those aligned to the [District](#), to the [Course](#), or already selected for this curriculum.
7. Click **Save** when finished.

## Considerations for Sharing

Details help users of the Curriculum Library to find the curriculum they're looking for. Curriculum is shared by folder; Details should be entered for the folder, and all included curriculum if desired, prior to sharing the folder. After curriculum is shared, Details can only be modified by removing a folder from the library, editing Details, and sharing the folder again.
