Nevada-Non-Traditional Supplemental Attendance Report Updated (SIS-168290)

Modifications have been made to the Non-Traditional Supplemental Attendance Report logic to clearly distinguish student data concerning enrollments and course history.

The 'Regularly Enrolled School Number' and 'Regularly Enrolled School Name' data elements report:

- 'Homeschool' when the student's enrollment has a Start Status of 'E4'.
- 'Private School' when the student's enrollment has a Start Status of 'E5'.
- The State School Number of the student’s enrollment associated with the school type 'C: Charter' when the student's enrollment has a Start Status of 'E6'.

When a student's enrollment has a Start Status of E4, E5, or E6, course records associated with the enrollment report when all of the following are true:

- Section belongs to an instructional period on the Period Schedule.
- 'Homeroom' is not marked on the student's Section or associated Course.
- Neither a Course Type nor a Course Activity is assigned the Standard Code of '9999'.

A script has been applied to all Nevada districts as part of this update:

- Set the Attribute/Dictionary Standard Code of 9999 for code SE when the code SE exists in in the Course.type dictionary.
- Set the Attribute/Dictionary Standard Code of 9999 for code AT when code AT exists in the Course.activityCode dictionary.
