For more information about Tool Rights and how they function, see the <u>Tool Rights</u> article.

This report might look different to some of the other available Oregon reports. Organizationwide initiatives are being made to address technology and accessibility improvements.

In addition, several reports are moving from the list of OR State Reports to be generated from the OR Student Programs option. At this time, only the ESEA Title X Homeless File is generated from OR Student Programs.

Report Logic

One record per reportable student who has at least one active enrollment at any time during the entered date range AND one Homeless (Living Situation Code).

See the **Homeless** article for additional guidance.

- When the student has only one active enrollment as of the entered End Date, Homeless information reports based on that calendar enrollment.
- When the student has multiple active enrollments as of the entered End Date, Homeless information reports based on the Primary enrollment (Enrollment Service Type of P: Primary).
 - When there are no primary enrollments, Homeless information reports from the Partial Enrollment (Enrollment Service Type of S: Partial). When there is no Partial Enrollment, information reports from the Special Education enrollment (Enrollment Service Type of N: Special Education). When the Partial and Special Education have the same End Date, the enrollment tied to the highest Calendar ID reports.

Students MUST have the following in order to report:

- A Student State ID
- At least one Homeless record that is active on at least one date included in the entered Start and End Dates entered on the Report editor.
- At least one Homeless Record has an assigned Nighttime Residence value.

When there are multiple homeless records that meet this requirement, data reports from the Homeless record with the earliest start date, e.g., the record where the student was FIRST identified as being homeless in the current school year.

When there are no student records that meet the requirements, a blank file with a header row generates.

Report Editor

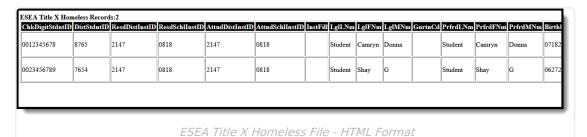

Data Element	Description
Set Up	
Search Calendars	Search field to narrow the list of calendars to select. Use the Expand All/Collapse All. Place a checkbox next to the desired school and calendars.

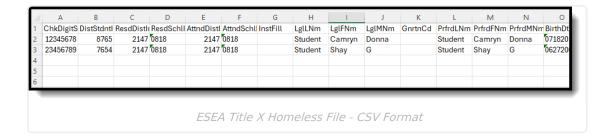

Data Element	Description
Show Active Year Only	When set to ON, only those calendars for the current school year are available for selection. When set to OFF, all calendars from all school years are available for selection.
Report Options	
Start Date	Entered date reflects the start of the reporting range in which data reports. This field defaults to July 01 of the school start year.
End Date	Entered date reflects the end of the reporting range in which data reports. This field defaults to June 30 of the school end year.
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer. Only those students included in the filter are included in the report.
Output Options	
Report Processing	To generate the report immediately, select Generate Now option. To choose when the report generates, use the Submit to Batch option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the <u>Batch Queue</u> article for more information.
Format Type	Determines in which format the report generates - CSV or HTML.

Generate the Report

- 1. Search for and select the desired **Calendars**.
- 2. Enter the desired **Start and End Dates**.
- 3. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
- 4. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
- 5. Select the desired **Format Type**.
- 6. Click **Generate**. The report displays in the selected format.
