Tool Search: Class Schedule

The Class Schedule File collects information for all students scheduled into instructional classes in grades K-12 at any time during the entered date range. Students must have a Student State ID and be scheduled into the class for a minimum of 10 consecutive instructional days to report.

Report Logic

The Class Schedule File Collection uses information from the Instructional Unit Identifier (IUID), Unique Staff Identifier (USID), and Secure Student Identifier (SSID) Collections. This means the IUID, SSID, and USID extracts must have successfully been submitted to the Department of

Education prior to the Class Schedule File submission.

This report links teachers and students with instructional courses and identifies which students and courses are taught by each teacher.

One record per reportable section that has at least one reportable teacher per reportable student/roster reports.

- All students **MUST** have an SSID number and their SSID record must be updated for the current reporting year.
- All Staff **MUST** have a USID number and their USID record must be updated for the current reporting year.
- Institutions must submit the sections needed for Staff Assignment to the IUID Collection prior to submitting Staff Assignment data.

Section Roster records do NOT report when:

- The school is marked as **Exclude**.
- The calendar is marked **Exclude**.
- Enrollments are marked as **No Show** or **State Exclude**.
- Students are enrolled in a grade level that is marked as **Exclude**.
- Course Sections are marked as **Exclude from State Reporting**.
- District Assignment records are marked as **Exclude**.

Course Sections must have the following in order to report:

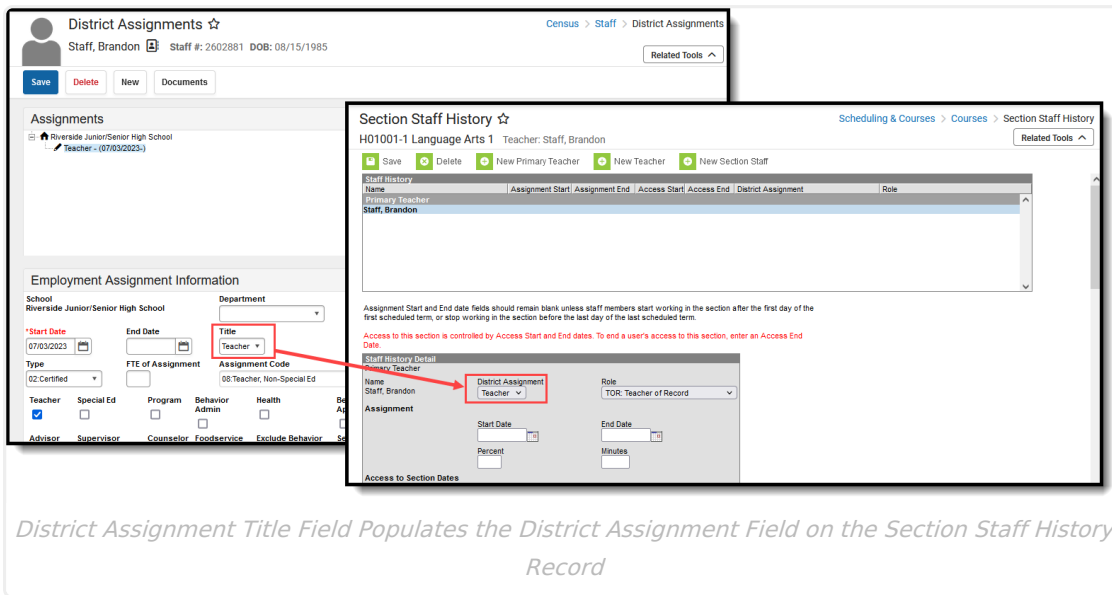

- Instructional Unit ID is assigned to the section.
- SCED Subject Area and SCED Identifier need to be assigned to the Course.
- At least one student scheduled into it on at least one date within the reporting range.
- Be active on at least one date during the reporting range in which the student is scheduled.
- The Course of the section must be marked Active.
- Meets in an instructional period.
- Meets for more than 10 days.

Courses assigned a Class Type (special Code) of the following DO NOT report:

- PKC (Pre-kindergarten Course)
- CCC (Community College Course)
- COLL (College Course)
- UNIV (University Course)
- NON (Non-instructional Course)

Students must be assigned a State Student ID (SSID) AND be scheduled for at least 10 consecutive instructional days during the school year in order to report. When students withdraw from a class and then re-enroll in the same class report with one record for each 10 instructional days or more period of enrollment.

Teachers must have a Staff State ID (USID) AND have an active District Assignment selected on the Section Staff History record with a Role that is NOT NSR (Not State Reported).

Report Editor

Data Element	Description
Setup	
Search Calendars	Search field to narrow the list of calendars to select. Use the Expand All/Collapse All. Place a checkbox next to the desired school and calendars.
Show Active Year Only	When set to ON, only those calendars for the current school year are available for selection. When set to OFF, all calendars from all school years are available for selection.
Report Options	
Report Type	The Class Schedule report type is the only available option.
Start Date	Entered date reflects the start of the reporting range in which data reports. This field defaults to July 01 of the school start year.
End Date	Entered date reflects the end of the reporting range in which data reports. This field defaults to June 30 of the school end year.
Include Partial SSN	When marked, the last four fields of the student's and staff person's Social Security number are included in the report when the Social Security number is available on the staff person's Demographic record.
Exclude Cross-Site Data	When marked, staff information for Cross-Site Enrollment courses is not included in the report. Cross-Site Enrollment is a new tool coming soon. Watch the Cross-Site Enrollment video for more information.

Data Element	Description
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer. Only those students included in the filter are included in the report.
Output Options	
Report Processing	To generate the report immediately, select Generate Now option. To choose when the report generates, use the Submit to Batch option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information.
Format Type	Determines in which format the report generates - CSV or HTML.

Generate the Report

1. Search for and select the desired **Calendars**.
2. Select the desired **Report Type**.
3. Enter the desired **Start and End Dates**.
4. Mark the **Include Partial SSN** to include Social Security numbers in the report.
5. Mark the **Exclude Cross-Site Data** to ignore all Cross-Site Enrollment Courses.
6. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
7. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
8. Select the desired **Format Type**.
9. Click **Generate**. The report displays in the selected format.
