Last Modified on 06/16/2025 9:21 am CDT

[Prerequisites](#) | [Setting Resource Preferences](#) Resource Preferences determine which information is sent to Ed-Fi. Resource Preferences can be imported or set manually. The information below details how to manually set the Resource Preferences for New Mexico. For information on importing mappings, please see the [Import Mappings](#) section of the [Core Ed-Fi Resource Preferences](#) article(<https://kb.infinitecampus.com/help/ed-fi-v31---ed-fi-configuration-tool---set-resource-preferences/v/.2511>). For each resource, choose Edit or Configure to map items like Scores or Grade Levels to an Ed-Fi Code. These items are called Descriptors. - Configure displays when preferences have not previously been saved. - Edit displays when preferences have already been set and saved. Resources can be expanded by clicking the plus sign or collapsed by clicking the minus sign. [Ed-Fi Resource Preferences Expand and Collapse Option](#) | [New Mexico Ed-Fi Resource Preferences](#)

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

## Prerequisites

- Ed-Fi functionality must be enabled via the [Enable Ed-Fi System Preference](#).
- Ed-Fi should be properly configured via the [Ed-Fi Configuration tool](#).

## Setting Resource Preferences

Resource Preferences determine which information is sent to Ed-Fi.

Resource Preferences can be imported or set manually. The information below details how to manually set the Resource Preferences for New Mexico. For information on importing mappings, please see the [Import Mappings](#) section of the [Core Ed-Fi Resource Preferences](#) article.

For each resource, choose Edit or Configure to map items like Scores or Grade Levels to an Ed-Fi Code. These items are called Descriptors.

- Configure displays when preferences have not previously been saved.
- Edit displays when preferences have already been set and saved.

Resources can be expanded by clicking the plus sign or collapsed by clicking the minus sign.

*Ed-Fi Resource Preferences Expand and Collapse Option*

When the Configure or Edit button does not display, the resource does not need to be mapped and the toggle button can be used to turn the resource on or off. Select a link below to view how to set the Resource Preferences.

Resources should be toggled off until all data setup is complete and the district is ready to send data to Ed-Fi.

1. Select the **Resource Preferences** button for the current school year. This name may vary depending on the Connection Name that was entered when adding the Connection.
2. The list of available resources displays.
3. Click the **Edit** or **Configure** button to modify the resource preferences.
4. Click **Save** when finished mapping the Descriptors.
5. Turn the resource preference to **ON**.
6. **Close** the Resource Preferences when finished.

**Any item not mapped DOES NOT REPORT to Ed-Fi.**

# New Mexico Ed-Fi Resource Preferences

The following provides details on each Resource and the desired preference for proper reporting with the state of New Mexico.

## Grades

The Grade Levels Resource cannot be toggled on or off because multiple resources use to determine grade level information.

Each **Grade Level Name** available in the district needs to be mapped to a corresponding Ed-Fi Code.

## Grading Period Scenarios

Create a Grading Period record for each Grading Task that you want to send a grade to in Ed-Fi.

The Grading Period reports in the Sessions resource where the end date of the Grading Period overlaps that terms start and end dates.

Sessions Resource:

TERM DETAIL	ED-FI CODE
17-18 EXP ACA   Main   QTR1 08/23/2017 - 10/20/2017	First Quarter: First Quarter
17-18 EXP ACA   Main   QTR2 10/23/2017 - 12/22/2017	Second Quarter: Second Quarter

17-18 EXP ACA   Main   QTR4 03/12/2018 - 05/23/2018	Fourth Quarter: Fourth Quarter

Example of Grading Period overlaps that terms start and end dates.

School reports a Quarter Grade at the end of each term:

Create four Grading Periods

Grading Task	Grading Period Descriptor	Start Date	End Date	Sequence	Sessions Reference

Quarter	Fourth Nine Weeks	03/12/2018	05/23/2018	4	Fourth Quarter

School reports a Semester Grade at the end of the Second and Fourth Quarters:

## Sessions

Map the **Term** for each calendar. This page shows all of the unique school, calendar, and schedule structure combinations for the configured year. The filter option at the top of the section can be used to filter by school, term name, term start dates, and/or grade level. The various filter fields determine which information displays. The Fill option can be used to fill the Ed-Fi code value for all fields or all empty fields.

The screenshot shows the 'Term Descriptors' interface. At the top, there are filter fields for 'School', 'Calendar', 'Term Name', 'Term Start Dates', and 'Grade Levels'. Below these is a 'Fill' section with a dropdown for 'Ed-Fi Code' and buttons for 'Fill Empty' and 'Fill All'. The main section is titled 'Elementary' and contains a table with two columns: 'TERM DETAIL' and 'ED-FI CODE'.

TERM DETAIL	ED-FI CODE

23-24 Elementary   Main   G2 10/10/2023 - 12/21/2023	Second Quarter: Second Quarter
23-24 Elementary   Main   G3 01/08/2024 - 03/08/2024	Third Quarter: Third Quarter

Term Descriptors

Select the Ed-Fi Term Type that matches the majority of the sections within the school.

- Example: If quarters are set on the Calendar and the sections are scheduled for 4 quarters, then the Ed-Fi Term Type for all 4 quarters should be set to Full School Year.
- Example: If quarters are set on the Calendar and the sections are scheduled for 2 quarters, then the Ed-Fi Term Type should be set to Fall Semester for Q1 and Q2, and Spring Semester set for Q3 and Q4.

The same Ed-Fi Term Type can be selected for multiple terms if they should be grouped together to make one term. The earliest Start Date and latest End Date will be used in reporting the Sessions resource.

When Term Descriptors are changed, a resync on Sessions for the impacted school(s) must be completed. If any dependent data of Sessions has been sent for the prior term, the dependent data will be deleted and inserted with the

new Term Descriptor. Dependent resources include Courses, Course Offerings, Sections, Student Section Associations, Staff Section Associations, Grades, and Student Section Attendance Events and can potentially cause a large amount of data in the Event Queue to be processed.

Term Descriptor Overrides should only be set on a course or section if it does not use the same term that is set on the Term Schedule in Step #1. A new Sessions resource will be created using the Section Placements to determine the Start and End Dates.

When Term Descriptor Overrides are changed, a resync on Sessions for the impacted school(s) must be completed. If any dependent data of Sessions has been sent for the prior term, the dependent data will be deleted and inserted with the new Term Descriptor Override. Dependent resources include Courses, Course Offerings, Sections, Student Section Associations, Staff Section Associations, Grades, and Student Section Attendance Events and can potentially cause a large amount of data in the Event Queue to be processed.

### **Additional Sessions Information**

▶ [Click here to expand...](#)

### **Multiple Term Schedules**

Using multiple Term Schedules with Ed-Fi is not supported due to the natural key conflicts with the Ed-Fi framework. If you have courses or sections that align to a different Term Schedule than what is set for Term Descriptors on the Primary Term Schedule, you must use the Ed-Fi Term Override fields on the Course or Section in order to report the proper Term Descriptors to Ed-Fi. All other data that reports to Ed-Fi with a Sessions reference will report from the Primary Term schedule only.

There is an **Ed-Fi Term Descriptor Override** checkbox on the Course Editor and Course Section Editor if the Calendar Term selection needs to be different for certain courses or certain course sections. Once the Ed-Fi Term Descriptor Override checkbox is checked, alternate Terms can be set in the Sessions Resource Preferences.
