The Ninth Grade On-Track Report returns enrolled students who have entered high school for the first time during the reporting year AND are considered on-track to graduate. Students are considered to be on track when they have earned 25% of their required credits for graduation in their first year of high school. Data reports from the student's [On Track](#) record.

## Report Logic

To report, a student's most recent On-track record that is active during the reporting range must contain a value in the **First School Year Entered HS** that is equal to the reporting school year

AND the Program Status field is set to 1: On-Track to Graduate.

A student must have a **Student State ID** and be enrolled in at least one reportable calendar on at least one date during the reporting school year to be included in the report.

A student does NOT report when:

- The Calendar of Enrollment is marked as State Exclude.
- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.

## Report Editor

Data Element	Description
<b>Report Type</b>	Determines which report generates. For this instance, select <b>Ninth Grade On-Track</b> .
<b>Ad hoc Filter</b>	Select which students to include in the extract by choosing a filter created in the Filter Designer. Only those students included in the filter are included in the report.
<b>Output Options</b>	
<b>Report Processing</b>	To generate the report immediately, select <b>Generate Now</b> option. To choose when the report generates, use the <b>Submit to Batch</b> option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the <a href="#">Batch Queue</a> article for more information.
<b>Format</b>	Determines in which format the report generates - CSV, XML or HTML.

## Generate the Report

1. Select **Ninth Grade On-Track** from the **Report Type** field.
2. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
3. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
4. Select the desired **Format Type**.
5. Click **Generate**. The report displays in the selected format.
