The Ninth Grade On-Track Report returns enrolled students who have entered high school for the first time during the reporting year AND are considered on-track to graduate. Students are considered to be on track when they have earned 25% of their required credits for graduation in their first year of high school. Data reports from the student's On Track record.

Report Logic

To report, a student's most recent On-track record that is active during the reporting range must contain a value in the **First School Year Entered HS** that is equal to the reporting school year

AND the Program Status field is set to 1: On-Track to Graduate.

A student must have a **Student State ID** and be enrolled in at least one reportable calendar on at least one date during the reporting school year to be included in the report.

A student does NOT report when:

- The Calendar of Enrollment is marked as State Exclude.
- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.

Data Element	Description
Report Type	Determines which report generates. For this instance, select **Ninth Grade On-Track.**
Ad hoc Filter	Select which students to include in the extract by choosing a filter created in the Filter Designer. Only those students included in the filter are included in the report.
Output Options	
Report Processing	To generate the report immediately, select **Generate Now** option. To choose when the report generates, use the **Submit to Batch** option. Submit to Batch is useful when generating the report for several calendars or for larger amounts of data being reported. See the Batch Queue article for more information.
Format	Determines in which format the report generates - CSV, XML or HTML.

Generate the Report

1. Select **Ninth Grade On-Track** from the **Report Type** field.
2. Choose an **Ad hoc Filter** to return just the course and staff information included in the selected filter.
3. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
4. Select the desired **Format Type**.
5. Click **Generate**. The report displays in the selected format.
