The 'Save & Batch Test' functionality under Step 4-Test Mapping in the Assessment Center has been enhanced. Users can select the 'Save & Batch Test' button, navigate away from the tool, and later return with a seamless progression to Step 5-Import Data. This occurs only when the source file and mapping configuration have not changed, and the previous batch test has a status of 'Completed'. An information toast message displays stating:

- "Save & Batch Test was run and completed. Review the results before moving to Step 5-Import Data".

Path: Student Information > Assessment Administration > Assessment Center > Test Mapping

There was an issue with the MISSING indicator displaying next to 'Student Identifier' on Step 3 of the Assessment Center when a user unmapped the 'Student Identifier' field selected on Step 2 and then selected the Apply Fuzzy Matching Logic button. This prevented users from progressing to Step 4 until they manually mapped the data for that column. This issue has been corrected.

Missouri Attendance Calculation and Attendance Audit Report Updates (SIS-174723)

Previously, attendance in Missouri was calculating based on instructional minutes instead of membership hours. This means students not rostered full time in a school were calculating as less than 100 percent attendance. Also, Calendar duration minutes were not being considered for the attendance calculations. For example, if a school day was reduced to a half due to snow, students were calculating as 50 percent for attendance instead of 100 percent for attending all hours the school was open.

With this case, the Calendar Duration Minutes and Membership Hours are now used in the attendance calculations. Membership Hours are now calculated based on each student's schedule. Also, the Regulars Hours Attended and Regular Hours Absent fields are now used as overrides for students not rostered into the school. The ADA and ADM calculations are now calculating correctly based on these changes.

The Include Remedial Hours in ADA calculation checkbox has been removed from the Attendance Audit Report extract editor. With the update to the attendance calculations, membership is the same for all students and remedial hours does not impact the calculation anymore.
