Report Logic

A student must have a State ID in order to report.

The June Special Education Exit collects:

- **EI children** exiting Part C (Record Type Code E1)
- **EI children** successfully transitioning to ECSE (Record Type Code A2)
  - Students who left an Early Intervention (EI) program and went directly to the Early Childhood Special Education (ECSE) program are reported as active (A2) ECSE students, not exited EI. That is, when the child did not have a break in services from the EI to ECSE program, and is **currently** in an ECSE program, the student does not report as exiting the EI program.
- **ECSE children** exiting special education or transitioning to School Age (Record Type Code E2)
- **School Age students** exiting special education (Record Type Code E3)
  - Records reported for students' ages 14 years and older exiting special education services are used for federal reports and for the Post-School Outcomes survey and its corresponding indicator report in the Systems Performance Review & Improvement system (Oregon's monitoring system).
  - School age students 13 years of age or younger at time of exit are not required to be reported to ODE, as this is optional; however it is recommended to ensure all exit records are accounted for.

Records reported as exited on last year's June Special Education Exit Collection should not be reported on this year's submission unless the student returned to the school, received services and then exited again.

Students must be actively enrolled on at least one date on or between the Start Date and End Date entered on the report editor.

Student must have an active and locked IEP on or between the Start Date and End Date entered on the report editor with a Special Ed Record Type of A1, E1, E2 or E3.

Students are NOT included in the report when:

- The Enrollment record is marked as No Show or State Exclude.
- The Grade Level of enrollment is marked as State Exclude.
- The Calendar of enrollment is marked as State Exclude.
