## Early Learning Detail Fields

Tool Search: Early Learning

The Early Learning tool lists student information related to programs designed to improve the health, social-emotional and cognitive outcomes for all students from birth through third grade, using the federal guidelines.

Early Learning records cannot overlap, meaning only one active record for a student can exist at any time.

See the core [Early Learning](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Early Learning records.
