Report logic

Information reports from the student's primary enrollment record as of the entered Effective Date.

- When the student does not have an active enrollment in the selected calendar, the most recent primary enrollment record is used.
- When there is more than one primary enrollment in the selected calendar, the latest Enrollment Start Date determines which enrollment reports.
- When the start dates are all the same, the enrollment with the highest enrollmentID reports.
- All Enrollment Service Types (Primary, Partial, Special Ed) report.

One record per student per resolution ID reports.

Each reported record represents a student, a behavior incident, and a discipline action.

- When multiple behavior events are associated with an incident, the most serious behavior type is reported for each student.
- When multiple discipline actions are associated with an incident, each discipline action is reported.
- Each incident may have multiple records with a duplicate incident identifier and one or more behaviors when more than one student is involved.
- A student may have multiple records when they are involved in multiple incdents or have multiple discipline actions associated with an incident.

State Exclude logic is enforced. Students are not reported, even when they meet the above requirements when:

- The Enrollment is marked as State Exclude or No Show.
- The Grade level of enrollment is marked as State Exclude.
- The selected Calendar is marked as State Exclude.

Only state-mapped resolutions are reported for the student listed as the **Offender** in the Behavior Event Participant editor.

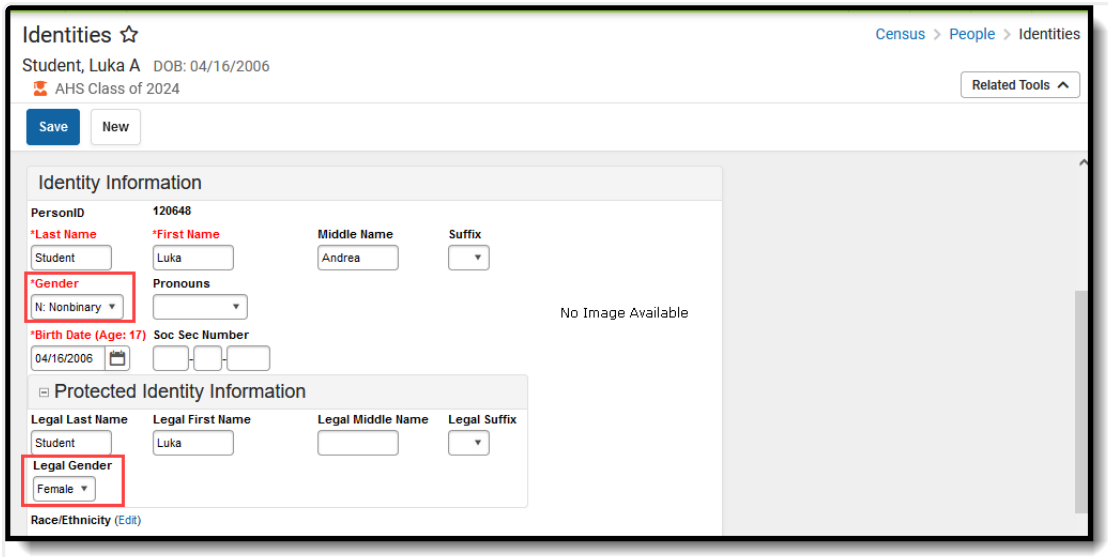

Non-binary reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the Identities tool and/or the Demographics tool.

> Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

Report editor

Data Element	Description
Start Date	Indicates the start date for reporting behavior events. At least one day of the Behavior Incident must fall within the start and end dates. Enter dates in mmddyy format, or use the calendar icon to select a date.
End Date	Indicates the end date by which to report behavior events. At least one day of the Behavior Incident must fall within the start and end dates. Enter dates in mmddyy format, or use the calendar icon to select a date.
Report Legal Name	When marked, reports the student names from the Protected Identity Information entered on the student's Identity record.
Ad hoc Filter	When selected, only students included in the selected ad hoc filter are reported in the extract if they meet the extract's requirements.
Format	Determines the layout of the report. Choose either CSV or HTML.
Calendar Selection	Select at least one calendar from which to report student discipline information.
Report Generation	Use the **Generate Extract** button to display the results of the extract immediately. When reporting a larger data set, use the Submit to Batch option to specify when the extract runs (after or before school hours, etc.). See the Batch Queue article for more information.

Generate the report

1. Enter a **Start Date** and **End Date.**

2. Mark the **Report Legal Name** checkbox, if desired, to return the student's Legal Name.
3. If desired, select an **Ad hoc Filter** to report only those students included in that filter.
4. Select the desired **Format**, either CSV or HTML, from the dropdown list.
5. Select at least one **Calendar** from which to report discipline records. Calendars can be chosen by active year, by school name or by year.
6. Click the **Generate Extract** button or the **Submit to Batch** button. The report displays in the selected format.

Report layout

All name fields (student names, guardian names, staff names) and Course Names can only include alphabetic letters, numbers, periods, hyphens, and apostrophes. Any special characters (accent marks, etc.) will be removed and replaced with the corresponding letter.
