DELETE	If enrollment that affects the attendance range is deleted.

Logic for Counting Days of Absence

There is an "Attendance Snapshot Time" designated in System Admin > Calendar > Calendar for each School.

Students who are marked absent in the period that contains the snapshot time are considered absent for the day.

Students who are marked present in the period that contains the snapshot time are considered present for the day.

Attendance marks in any other period do not count.

Students with ADA Eligibility = 2, 5, or 6 count one-half day of absence or presence for each instructional day.

If there is a number entered into Present Minutes for a period use that number to calculate the total minutes, no matter what attendance code is entered.

If there is no attendance code/a Present code/an Absent-Exempt code and no minutes entered into the Present Minutes, use the Period Start and End times to calculate the number of minutes Present, adding together the instructional minutes from any instructional period in which the student is scheduled into an attendance taking course, when the student does not have an attendance code with a Status/Excuse of Absent/Excused, Absent/Unexcused, Absent/Unknown, or teacher-entered absence.
