Gifted Field Descriptions

Tool Search: Gifted

The Gifted tool tracks a student's participation in Gifted programming through enrichment, acceleration, and/or advanced curriculum. Gifted programs vary in name - Gifted, Gifted and Accelerated, etc. Schools can record a student's participation that includes a specific type of program or location or focus, note permission to participate, generate a summary report of the entered data, and a variety of other items that states may wish to capture.

Students may have multiple Gifted records. However, Gifted records may not overlap. Users must end date a Gifted record before creating a new record. Fields described below are specific to the state of Delaware. Please see the Gifted and Talented article for additional information on fields not included here.
